PREFACE

The present bulletin, one of a series which will deal with each province in turn, gives for Ontario the final results of the Census of Agriculture, taken as of June 2, 1941.

A brief introduction sets out various definitions and explanations for the items or terms used in the bulletin. In appendices will be found copies of the questionnaires used in the enumeration, as well as a tabular index and descriptions of the census divisions used for the presentation of results.

When all the provinces have been dealt with in this way, the bulletins will be brought together in one volume, Volume VIII, which in addition will contain a summary for Canada as a whole.

The organization for the taking of the census and the general planning of the census was carried on under the direction of A. J. Pelletier, F.S.S., Chief of the Census Branch. Since May, 1942, Mr. Pelletier was seconded to the Government of Jamaica, and the materials for this bulletin were prepared under the direction of O. A. Lemieux, M.S.A., Ph. D., Acting Chief of the Census Branch, assisted by J. L. Forsyth, M.Sc., Statistician in charge of the Agricultural Section of the Census Branch.

S. A. CUDMORE,
Dominion Statistician.

September 13, 1945

PRÉFACE

Le présent bulletin, l'un d'une série qui traitera de chacune des provinces à tour de rôle, donne les résultats définitifs du recensement de l'Agriculture fait en Ontario le 2 juin 1941.

Une courte introduction établit diverses définitions et explications des item ou termes employés dans le bulletin. Les appendices contiennent les copies des questionnaires qui ont servi lors du dénombrement, ainsi qu'un index tabulaire et une description des divisions de recensement qui ont été employées dans la présentation des relevés.

Lorsque toutes les provinces auront été traitées de cette façon, les bulletins seront réunis en un seul volume, le volume VIII, qui contiendra également un résumé de tout le Canada en général.

L'organisation du recensement et le plan général de son opération étaient sous la direction d'A. J. Pelletier, F.S.S., chef de la Branche du Recensement. Depuis mai 1942, M. Pelletier ayant été prêté au gouvernement de la Jamaïque, la matière du présent bulletin a été préparée sous la direction d'O. A. Lemieux, M.S.A., Ph.D., chef suppléant de la Branche du Recensement, assisté de J. L. Forsyth, M.Sc., statisticien préposé à la section agricole de la Branche du Recensement.

S. A. CUDMORE,
Statisticien du Dominion.

13 septembre, 1945.

INTRODUCTION

This bulletin presents statistics of agriculture for the province of Ontario, as compiled from data obtained in the Census of June 2, 1941.

A number of preliminary bulletins have been published heretofore giving certain census data as it became available. This bulletin presents final figures from the census and therefore includes all revisions made since the preliminary reports were issued. The bulletin is made up of four parts: (a) comparative tables, (b) detailed tables by census division or county, (c) detailed tables by census subdivision and (d) cross-classifications.

In Tables 1 to 27 inclusive, statistics for previous censuses are given, where available, in order to show the changes which have taken place in the province over a period of years.

In Tables 28 to 50 inclusive, certain statistics are given for each census division or county. These include data pertaining to the farm population, the number of farm workers, the tenure, size and type of farms, farm values and areas, condition of occupied farm lands, farm indebtedness, production and value of the various farm products, gross farm revenues and expenses, live stock on farms and farm machinery. Certain data pertaining to abandoned or idle farms, are also included in this series of tables.

Tables 51 to 54 inclusive contain, by census subdivision, statistics of the farm population, tenure, farm labour, area and condition of occupied farm lands, farm values, size of farms, number of non-resident farms, area of certain field crops and the number of the different classes of live stock.

Tables 55 to 129 inclusive, contain a number of cross-classifications of data for the province as a whole. These tables give a fairly complete study of the farm operators and population, farm areas, values and indebtedness, farm expenses and gross revenues, condition of occupied farm land, and the number of farms reporting certain crops and classes of live stock, classified by size, by tenure and by type of farm.

Date of the Census.—The Census of 1941 was taken as of June 2nd, while the censuses of 1931, 1921 and 1911 were taken on June 1st. The Census of 1901 was taken on April 1st, that of 1891 as of April 5th, the Census of 1881 on April 4th, and that of 1871 on April 2nd. These dates should be kept in mind when comparing the number of live stock on farms, since a census taken in June would include a large number of young animals not included in a census taken in April.

Year to which Census Figures apply.—The inquiries relating to the farm operators, farm population, farm areas and tenure, farm values, farm machinery, mortgages and liens, number of fruit trees and live stock on farms, were as of June 2, 1941. Data relating to the number of trees tapped and the production of maple products were for the 1941 season. The inquiries relating to farm workers elicited information concerning those employed during the week ending May 31, 1941. Statistics relating to the production of crops, animal and forest products, purchases and disposals of live stock, farm expenses and revenues, were obtained for the year 1940.

INTRODUCTION

Ce bulletin présente les statistiques agricoles pour la province d'Ontario telles que compilées d'après les données obtenues lors du recensement du 2 juin 1941.

Quelques bulletins préliminaires ont été publiés jusqu'ici contenant certaines données de recensement à mesure qu'elles étaient disponibles. Ce rapport présente les chiffres définitifs du recensement; il comprend donc toutes les revisions faites depuis la publication des rapports préliminaires. Le bulletin est divisé en quatre parties, à savoir, (a) tableaux comparatifs, (b) tableaux détaillés par division ou comté de recensement, (c) tableaux détaillés par subdivision de recensement, et (d) classifications recoupées.

Les tableaux 1 à 27 inclusivement donnent les statistiques des recensements antérieurs, lorsqu'elles sont disponibles, de manière à montrer les changements survenus dans la province pendant un certain nombre d'années.

Les tableaux 28 à 50 inclusivement donnent certaines statistiques pour chaque division ou comté de recensement. Ils consistent en données sur la population agricole, le nombre de travailleurs agricoles, la tenure, la grandeur et le type de ferme, les valeurs et les superficies, l'état de la terre des fermes occupées, les dettes de la ferme, la production et la valeur des divers produits agricoles, les revenus bruts et les dépenses, les bestiaux sur les fermes et machines agricoles. Cette série de tableaux renferme également certaines données sur les fermes abandonnées ou inexploitées.

Les tableaux 51 à 54 inclusivement contiennent, par subdivision de recensement, les statistiques de la population agricole, la tenure, la main-d'œuvre agricole, la superficie et l'état de la terre, les valeurs et la grandeur des fermes, le nombre de fermes inhabitées, la superficie de certaines grandes cultures et le nombre de bestiaux de diverses classes.

Les tableaux 55 à 129 inclusivement contiennent quelques classifications recoupées de données pour la province dans son ensemble. Ces tableaux présentent une étude assez complète des exploitants et de la population agricoles, des superficies des fermes, des valeurs et des dettes, des revenus bruts et dépenses de la ferme, de l'état de la terre des fermes occupées, et du nombre de fermes déclarant certaines cultures et classes de bestiaux, classifiées par grandeur, tenure et type de ferme.

Date du recensement.—Le recensement de 1941 a été commencé le 2 juin, tandis que ceux de 1931, 1921 et 1911 l'avaient été le 1er juin. Le recensement de 1901 a été effectué le 1er avril, celui de 1891 le 5 avril, celui de 1881 le 4 avril et celui de 1871 le 2 avril. Ces dates devraient entrer en ligne de compte dans la comparaison du nombre de bestiaux sur les fermes, puisque un recensement effectué en juin comprendrait un plus grand nombre de jeunes animaux non compris dans un recensement effectué en avril.

Année à laquelle s'appliquent les chiffres du recensement.—Les questions concernant les exploitants de fermes, la population agricole, la superficie et la tenure, les valeurs de la ferme, les machines agricoles, les hypothèques et les droits de rétention, le nombre d'arbres fruitiers et de bestiaux sur les fermes, ont été faites en date du 2 juin 1941. Les données relatives au nombre d'arbres entaillés et à la production de produits de l'érable se rapportent à la saison de 1941. Les questions relatives aux travailleurs agricoles ont mis à jour des renseignements concernant les travailleurs employés pendant la semaine terminée le 31 mai 1941. Les statistiques se rapportant à la production des récoltes, aux produits animaux et forestiers, aux achats et aux ventes de bestiaux, aux dépenses et aux revenus de la ferme, ont été obtenues pour l'année 1940.

Method of Taking the Census.—For the purpose of taking the census, the province was divided into census districts corresponding as nearly as possible to federal electoral districts. The census districts were subdivided into census subdistricts or enumeration areas. For the 1941 Census, the province was divided into 5,042 enumeration areas, 2,871 of which contained farms. An enumerator was appointed for each enumeration area, and it was his or her duty to visit every farm in this area to secure the information asked for on the schedules. The information was secured from the farm operator or, in his absence, from a competent member of the family. After being checked by the census commissioner, the schedules were forwarded to the Dominion Bureau of Statistics at Ottawa, where they were edited by a trained staff.

Schedules.—Four schedules were employed in the taking of the 1941 Census of Agriculture, namely: (1) a general farm schedule (Form 2), (2) a schedule for fruit and vegetable farms (Form 2A), (3) a schedule for abandoned or idle farms (Form 2B), and (4) a schedule for statistics of animals and agricultural production elsewhere than on farms (Form 3).

The general farm schedule, containing 643 questions, elicited information concerning, (a) the farm operator, population, areas, tenure, condition of occupied lands, values, indebtedness, farm machinery, and live stock on farms as of June 2, 1941, (b) the area of field crops sown or planted for harvest in 1941, the number of persons employed on the farm during the week ending May 31, 1941, and (c) the area, production and value of crops, the area and cause of crop failure, weeks of hired labour, farm expenditures, animal products of the farm, forest products cut on the farm, the quantity and value of crops and other farm products sold or consumed on the farm, etc., for the year 1940.

A special schedule of 312 questions elicited statistics concerning fruit and vegetable farms (see page xiii for definition). The inquiries on this schedule relate to, (a) the area, production and value of vegetables and small fruits, the production and value of orchard and vineyard fruits, the amount received from the sale of nursery products and vegetable plants, and the value of fruits and vegetables consumed on the farm, for the year 1940, and (b) the area and value of greenhouse and hothouse establishments, the number of fruit trees or grape vines on farms according to various age groups and the area of farm land used for growing vegetables, fruits, nursery products and flowers in 1941.

The abandoned or idle farm schedule elicited information such as the total area, the area of improved land, and the value of land and buildings on the abandoned or idle farms.

The schedule for agriculture elsewhere than on farms elicited statistics of animals, animal products, fruits, garden and greenhouse products, etc., on plots of less than one acre, and on larger plots which did not fully conform to the census definition of a farm. These plots may be located in either urban or rural areas, and are mainly records of home gardens and animals.

Copies of these schedules will be found in Appendix A.

Méthode d'effectuer le recensement.—Pour les fins du recensement, la province a été divisée en districts de recensement correspondant autant que possible aux circonscriptions électorales fédérales. Ces districts sont subdivisés en sous-districts de recensement ou régions de dénombrement. Pour le recensement de 1941, la province avait été divisée en 5,042 régions de dénombrement, dont 2,871 contenaient des fermes. Un énumérateur fut nommé pour chaque région de dénombrement, et celui-ci ou celle-ci avait pour tâche de visiter toutes les fermes de cette région afin d'obtenir les renseignements demandés dans les questionnaires. Ces renseignements furent obtenus de l'exploitant de la ferme ou, en son absence, d'un membre compétent de la famille. Après avoir été vérifiés par le commissaire du recensement, les questionnaires furent transmis au Bureau Fédéral de la Statistique, à Ottawa, et dépouillés par un personnel spécialisé.

Questionnaires.—Quatre questionnaires sont utilisés dans le Recensement de l'Agriculture de 1941, à savoir (1) un questionnaire agricole général (Formule 2), (2) un questionnaire pour les fermes à fruits et à légumes (Formule 2A), (3) un questionnaire pour les fermes abandonnées ou inexploitées (Formule 2B), et (4) un questionnaire pour la statistique des animaux et de la production agricole ailleurs que sur les fermes (Formule 3).

Le questionnaire agricole général, contenant 643 questions, a mis à découvert des renseignements concernant (a) l'exploitant de la ferme, la population, les superficies, la tenure, l'état des terres occupées, les valeurs, les dettes, les machines agricoles et les bestiaux sur les fermes le 2 juin 1941, (b) la superficie des grandes cultures semées ou plantées pour la récolte de 1941, le nombre de personnes employées sur la ferme pendant la semaine finissant le 31 mai 1941, et (c) la superficie, la production et la valeur des récoltes, la superficie et la cause des récoltes manquées, les semaines de main-d'œuvre louée, les dépenses de la ferme, les produits animaux de la ferme, les produits forestiers obtenus sur la ferme, la quantité et la valeur des récoltes et d'autres produits agricoles vendus ou consommés sur la ferme, etc., pour l'année 1940.

Une formule spéciale contenant 312 questions a fourni les statistiques concernant les fermes à fruits et à légumes (voir définition page xiii). Les questions figurant sur cette formule concernent (a) la superficie, la production et la valeur des légumes et des petits fruits, la production et la valeur des fruits de vergers et de vignobles, le montant reçu de la vente de produits de serre et de plants de légumes, et la valeur des fruits et des légumes consommés sur la ferme, pour l'année 1940, et (b) la superficie et la valeur des établissements de serres et de forceries, le nombre d'arbres fruitiers ou de ceps de vignes sur les fermes d'après différents groupes d'âge et la superficie de la terre de ferme employée pour la culture des légumes, fruits, produits de pépinière et fleurs en 1941.

Le questionnaire sur les fermes abandonnées ou inexploitées a fourni des renseignements tels que la superficie totale, l'étendue de terre défrichée, et la valeur de la terre et des bâtiments sur les fermes abandonnées ou inexploitées.

Le questionnaire relatif à l'agriculture ailleurs que sur les fermes a mis à découvert des statistiques sur les animaux, les produits animaux, les fruits, les jardinages et les produits de serre, etc., sur des lopins de terre de moins d'une acre et sur les lopins plus grands qui ne répondent pas pleinement à la définition de la ferme pour les fins du recensement. Ces lopins de terre peuvent être situés indifféremment dans des régions urbaines ou rurales et comptent principalement des potagers et des animaux domestiques.

L'appendice A contient des copies de ces questionnaires.

EXPLANATION OF TERMS

Farm.—A farm, for census purposes, is all the land located in one municipality which is directly farmed by one person conducting agricultural operations, either by his own labour or with the assistance of members of his household or of hired employees. It may consist of a single tract of land, or of a number of separate tracts held under different tenures. In order to be reported as a farm, such land must be of one acre or more in extent and have produced in 1940, agricultural products to the value of $50 or more, or be under crops or employed for pasture in 1941.

"Resident" and "Non-Resident" Farms.—When taking the census, it was found that in a number of instances a farm was located in two or more enumeration areas. Where this occurred, the part that was located in each enumeration area was treated as a separate farm. The part located in the enumeration area where the operator lived was called a "resident" farm. The part outside this enumeration area was called a "non-resident" farm. In the majority of cases these "non-resident" farms were parts of other farms, rather than separate farms or units, although prior to the 1941 Census they were treated as separate farms. In the 1941 Census "non-resident" and "resident" farms located in the same municipality were combined as one farm. This fact must be taken into consideration when comparing the number of farms for the different census years. Any duplication in previous censuses, however, affected only the number of farms, and not their area or other statistics.

Since the farm operator would be the most reliable source for such inquiries as farm expenditures, indebtedness, etc., these data were enumerated in the 1941 Census on the "resident" farm. Where the "non-resident" farm was not part of another farm the enumerator elicited the information from the neighbour operator. These facts must be kept in mind, when making comparisons of the above mentioned statistics for the different census divisions and subdivisions.

Fruit Farms and Market Gardens (Fruit and Vegetable Farms).—These terms, as used in the 1941 Census, apply to (a) farms which produced for sale in 1940, either vegetables (other than potatoes and turnips), vegetable plants, vegetable seed, nursery products, greenhouse products, or small fruits to the value of $50 or more, and (b) farms where there were 50 fruit trees or more in 1941. Statistics of fruits and vegetables on these farms were enumerated on the special fruit and vegetable schedule (Form 2A), while the statistics of vegetables and fruits of farm gardens and orchards were recorded on the general farm schedule (Form 2).

In summarizing the data from Fruit Farms and Market Gardens it was found that in certain cases the operator was able to give the total value of production but was not able to give a detailed breakdown of the area, production and value by crops. Where this occurred the total value of production was included in the division and provincial summaries.

In some of the larger fruit growing areas young trees, trees of other kinds of fruits, vegetables or field crops were interplanted with the older orchard trees. Similarly in some of the specialized market garden areas, there was a considerable amount of double cropping, that is, two or even

EXPLICATION DES TERMES

Ferme.—Aux fins du recensement, une ferme comprend toute l'étendue de terre située dans une municipalité quelconque et cultivée par un fermier qui l'exploite lui-même ou avec l'aide de membres de sa famille ou de personnes engagées. Elle peut se composer d'une seule langue de terre ou d'un certain nombre de lopins distincts exploités sous divers modes de tenure. Pour être désignée comme une ferme, cette étendue de terre doit être d'une acre ou plus et avoir donné en 1940 pour une valeur de $50 ou plus de produits agricoles ou être en culture ou en pâturage en 1941.

Fermes "habitées" et fermes "inhabitées".—Lors du recensement, il a été trouvé dans plusieurs cas qu'une ferme se trouvait dans deux régions de dénombrement ou plus. Lorsque la chose se présentait, la partie située dans chacune des régions de dénombrement était traitée comme ferme séparée; la partie située dans la région de dénombrement où demeurait l'exploitant était appelée ferme "habitée"; la partie en dehors de cette région de dénombrement était appelée ferme "inhabitée". Dans la plupart des cas, ces fermes "inhabitées" formaient partie d'une autre ferme plutôt qu'une unité ou ferme séparée, bien qu'avant le recensement de 1941 elles aient été traitées comme fermes séparées. Dans le recensement de 1941, les fermes "inhabitées" et "habitées" situées dans la même municipalité sont combinées en une seule ferme. Ce fait doit entrer en ligne de compte en comparant le nombre de fermes pour les diverses années de recensement. Cependant, lorsqu'il y a eu double emploi dans les recensements précédents, ceci n'a affecté que le nombre de fermes et non leur superficie et les autres statistiques.

Puisque l'exploitant de la ferme serait la source de renseignements la plus sûre pour des enquêtes telles que les dépenses de la ferme, les dettes, etc., ces données sont compilées, pour le recensement de 1941, d'après les fermes "habitées". Lorsque la ferme "inhabitée" ne faisait pas partie d'une autre ferme, l'énumérateur se procurait les renseignements de l'exploitant voisin. Il faut tenir compte de ces faits dans les comparaisons des statistiques ci-dessus mentionnées pour les diverses divisions et subdivisions de recensement.

Fermes à fruits et jardins maraîchers (Fermes à fruits et à légumes).—Ces termes, tels qu'employés dans le recensement de 1941, s'appliquent (a) aux fermes qui ont produit pour la vente en 1940 des légumes (autres que les pommes de terre et les navets), des plants de légumes, des semences de légumes, des produits de pépinière, des produits de serre, ou des petits fruits pour une valeur de $50 ou plus, et (b) aux fermes où il y avait 50 arbres fruitiers ou plus en 1941. Les statistiques des fruits et des légumes sur ces fermes ont été recueillies sur le questionnaire spécial des fruits et légumes (Formule 2A), tandis que les statistiques des fruits et légumes des jardins et des vergers de ferme ont été recueillies sur le questionnaire agricole général (Formule 2).

En résumant les données obtenues des fermes à fruits et des jardins maraîchers, il a été trouvé, dans certains cas, que l'exploitant pouvait déclarer la valeur totale de la production mais qu'il ne pouvait décomposer la superficie, la production et la valeur par récolte, en détail. Dans de tels cas, la valeur totale de la production a été incluse dans les sommaires des divisions et des provinces.

Dans quelques-unes des régions fructicoles importantes, de jeunes arbres, des arbres fruitiers d'autres sortes, des légumes ou des grandes cultures étaient plantés entre les arbres fruitiers plus vieux. De même, dans quelques-unes des régions spécialisées dans le jardinage maraîcher, il y avait

more crops were grown on the same area during the year. Where these practises were followed the sum of the areas reported for the individual fruits, vegetables or field crops exceeded the total area reported "under crops".

It was also noted that the average production and value of green peas per acre were, in some localities, at considerable variance with those of other areas. This may be explained by the fact that the vines as well as the pods were marketed. In such instances the grower would report a much higher production and, consequently, a lower unit value.

When the 1940 production of certain vegetables and fruits were compared with the quantity of these commodities purchased during the year by the processing plants, it was found that in some instances the production, as reported in the census, did not cover the quantities purchased by the processors. Based on an examination of the individual census returns, the following are offered as a possible explanation for these differences: (a) The inability of the grower to give the exact production of the various crops, especially as the inquiries were made from nine months to a year after the actual harvest; further, since some crops e.g., tomatoes and beans, were harvested over a period of from two to three months, the grower would have some difficulty in keeping accurate records of the production. In the case of peas for canning, the entire plant was taken by the processor and the grower did not know the actual quantity of shelled peas harvested, although he did know the value of the quantity sold to the processor. (b) Lack of an adequate conversion factor, where the units of production used in the area were not the same as those on the census schedule. An example of this is where corn for canning was sold to the processor on a ton basis, while the information was sought in dozen. (c) An apparent confusion existing in the minds of some growers as to what are field, vegetable and canning crops, and where a vegetable crop becomes a field crop or even a canning crop. It appears in some instances that such (dual or triple purpose) crops were reported as field rather than as vegetable crops. For example, a grower may plant a field of peas or beans and harvest part of it as green peas or beans, which part would be considered a vegetable crop. He may then harvest a second part for canning, and leave the remainder of the crop to ripen and report same as a field crop.

Abandoned or Idle Farms.—These terms refer to tracts of land, part or all of which had been at one time employed for the growing of crops, but which were abandoned or idle on June 2, 1941. An "abandoned farm" was one which had been unoccupied during the last several years, was in arrears for taxes, and had, to all appearances, been deserted by the owner. An "idle farm" was one which was unoccupied at the date of the census, from which no crop was harvested in 1940, and which was not under crop of any kind in 1941. These farms may have been abandoned because of financial difficulties on the part of the operator, because they were not suitable for cultivation, or for other reasons.

"Fully Owned" Farms.—Full ownership means that the operator holds the title or deed to all the land he operates.

beaucoup de récoltes intercalaires, c'est-à-dire deux récoltes ou même plus étaient cultivées sur la même étendue pendant l'année. Là où ces pratiques étaient suivies, la somme des superficies signalées pour chacune des cultures de fruits, des légumes ou pour chaque grande culture, dépassait la superficie totale déclarée comme étant "en culture".

Il a également été constaté que la production et la valeur moyennes des pois verts par acre, dans quelques localités, sont bien différentes de celles d'autres régions. Ceci s'explique par le fait que les tiges, aussi bien que les gousses, sont vendues. Dans ces circonstances, le producteur déclarait une production beaucoup plus forte et, par conséquent, une valeur moins élevée de l'unité.

Lorsque la production de 1940 de certains fruits et légumes a été comparée à la quantité de ces produits achetée pendant l'année par les établissements de conditionnement, la production, dans certains cas, telle que signalée dans le recensement, ne couvrait pas les quantités achetées par ces établissements. En se basant sur un examen des rapports individuels du recensement, ce qui suit est proposé comme explication possible de ces différences: (a) l'inaptitude du producteur à déclarer la production exacte des diverses récoltes, particulièrement lorsque les enquêtes étaient faites de neuf mois à un an après la moisson proprement dite; en outre, comme certaines récoltes, notamment celles de tomates et de haricots, étaient faites pendant une période allant de deux à trois mois, le producteur peut avoir eu des difficultés à tenir des registres exacts de la production. Dans le cas des pois destinés à la mise en conserve, le plant tout entier était pris par le conserveur et le producteur ne savait pas la quantité réelle de pois écossés qu'il avait récoltés, bien qu'il connaissait la valeur de la quantité vendue au conserveur, (b) le manque d'un facteur adéquat de conversion, là où les unités de production en usage dans la région n'étaient pas les mêmes que celles figurant sur le questionnaire de recensement. Un exemple de cette situation est que lorsque le maïs à conserve était vendu au conserveur en prenant la tonne pour base, et que le renseignement était demandé en douzaines. (c) Une confusion apparente chez certains producteurs quant à la signification de récoltes de grande culture, de légumes et à conserve, et quand une récolte de légumes devient une grande culture ou même une récolte à conserve. Il semble que, dans certains cas, ces récoltes (à deux ou à trois fins) aient été signalées comme grandes cultures plutôt que comme récoltes de légumes. Par exemple, un producteur peut planter un champ en pois ou en haricots et en récolter une partie comme pois ou haricots verts, laquelle partie serait considérée comme récolte de légumes; il peut alors en récolter une deuxième partie pour la mise en conserve et laisser le reste de la récolte mûrir et en faire rapport comme grande culture.

Fermes abandonnées ou inexploitées.—Ces termes s'appliquent aux étendues de terre qui ont déjà été, en partie ou en entier, utilisées pour la culture mais qui étaient abandonnées ou inexploitées le 2 juin 1941. Une "ferme abandonnée" est celle qui était inoccupée depuis quelques années, qui avait de l'arrérage d'impôt, et avait été, selon les apparences, abandonnée par le propriétaire. Une "ferme inexploitée" est celle qui était inoccupée à la date du recensement, d'où il n'a été tiré aucune récolte en 1940 et qui ne portait aucune culture en 1941. Il se peut que ces fermes aient été abandonnées à cause de difficultés financières de la part de l'exploitant, parce qu'elles n'étaient pas propres à la culture ou pour d'autres raisons.

Fermes "propriétés entières".—Propriété entière signifie que l'exploitant est détenteur du titre ou acte notarié pour toute la terre qu'il exploite.

"Partly Owned, Partly Rented" Farms.—This term refers to instances where the farm operator owns only part of the land he operates, and rents or leases the remainder.

Farm Operator.—This term is used in the census to denote the person who is directly responsible for the agricultural operations of the farm, whether as owner, tenant, cropper or hired manager.

Racial Origin.—This was the first decennial census in which information concerning the racial origin of the farm operator was elicited on the agricultural schedule.

The term "racial origin", for census purposes, has mainly a cultural and geographical implication; it suggests whence our people came and their implied cultural background. In other words, it deals with the sources from which the Canadian population has been derived.

There has been, at times, a certain amount of confusion between "racial origin" and "nationality". The confusion arises from the fact that the term "Canadian" is not accepted to describe racial origin; the contention being that there is not, as yet, a well defined Canadian race. It should be remembered, however, that while there is no "Canadian" race, there is a well defined Canadian nationality and that while the term "Canadian" is not acceptable to describe racial origin, it is essential to describe nationality.

In tracing origin in the case of persons of European descent, the line is through the father. By applying this rule, those of mixed family origin are resolved with a fair degree of accuracy into their constituent elements.

For persons belonging to stocks involving differences in colour (i.e., the black, yellow and brown races) the entry was Negro, Japanese or Chinese, Hindu, Malayan, etc., respectively; orientals being thus segregated by country of origin.

In the case of children begotten of marriages between white and black, white and Chinese, etc., the entry under racial origin was Negro, Chinese, etc.

For the Canadian aborigines, the entry was Indian or Eskimo and for persons of white and Indian blood the entry was "Half-breed".

Farm Population.—Each farm operator was asked to state the total number of persons living on the farm as well as the number of males and females under 14 years of age and those 14 years of age and over. Members of the household on Active Service or at camp with a Reserve Army Unit were considered as part of the farm population. All persons on an institutional farm who supervised or performed agricultural operations were included in the farm population. The purpose of these inquiries was to elicit information that would permit the separation of the farm population from the rural non-farm population.

It will be noted in a few subdivisions (Table 51) that the farm population was greater than the total rural population of the subdivision. This was due to the fact that the farm population included persons living on farms that were located in cities, towns or villages, farms which, for purposes of compilation, have been included with those of the adjoining subdivision.

It often happens that the terms "farm population" and "rural population" are used synonymously. For census purposes, the rural population was that part of the population which resided outside the boundaries of incorporated cities, towns or villages, while the farm population was that part

Fermes "partiellement possédées et louées".—Ce terme s'applique aux cas où l'exploitant d'une ferme n'est propriétaire que d'une partie seulement de la terre qu'il exploite, et loue ou prend à bail le reste.

Exploitant de ferme.—Ce terme est employé dans le recensement pour indiquer la personne directement responsable des travaux agricoles de la ferme, qu'elle soit propriétaire, locataire, métayer ou gérant engagé.

Origine raciale.—Ce recensement décennal est le premier où des renseignements relatifs à l'origine raciale de l'exploitant de ferme sont donnés sur le questionnaire agricole.

Le terme "origine raciale", pour les fins du recensement, a surtout une signification culturelle et géographique; il donne une idée de l'origine de notre peuple et le fonds culturel que cela comporte. En d'autres termes, il traite des sources d'où la population canadienne est issue.

Il y a eu parfois entre les termes "origine raciale" et "nationalité" un certain degré de confusion. Cette confusion vient du fait que le terme "canadien" n'est pas accepté pour désigner l'origine raciale; il est soutenu qu'il n'y a pas encore de race canadienne bien définie. Il ne faut pas oublier, cependant, que bien qu'il n'y ait pas de race "canadienne", il existe une nationalité canadienne bien définie et que si le terme "canadien" n'est pas acceptable pour désigner l'origine raciale, il est essentiel pour désigner la nationalité.

Pour trouver l'origine, dans le cas de personnes de descendance européenne, la ligne paternelle est suivie. Par l'application de cette règle, les personnes d'origine familiale mixte sont classées avec un degré d'exactitude assez élevé dans leurs éléments constitutifs.

Pour les personnes appartenant à des souches entraînant des différences de couleurs (i.e., les races noire, jaune et brune), l'inscription est nègre, japonais ou chinois, indou, malais, etc., respectivement; les orientaux se trouvent ainsi classés par pays d'origine.

Dans le cas des enfants issus de mariages entre blancs et noirs, blancs et chinois, etc., l'inscription sous origine raciale est nègre, chinois, etc.

Pour les aborigènes canadiens, l'inscription est indien ou eskimo, et pour les personnes issues de blancs et d'indiens, l'inscription est "métis".

Population agricole.—Il a été demandé à chaque exploitant de ferme de déclarer le nombre de personnes vivant sur sa ferme ainsi que le nombre d'hommes et de femmes âgés de moins de 14 ans et de ceux âgés de 14 ans et plus. Les membres de la famille en service actif ou dans un camp de l'armée de réserve sont considérés comme faisant partie de la population agricole. Toutes les personnes se trouvant sur la ferme d'une institution, surveillant ou exécutant des travaux agricoles, sont incluses dans la population agricole. Le but de ces enquêtes est de mettre à jour des renseignements qui permettent de séparer la population agricole de la population rurale non agricole.

Il est à noter que dans quelques subdivisions (voir tableau 51) la population agricole est plus forte que la population rurale totale. Ceci s'explique par le fait que la population agricole comprend des personnes demeurant sur des fermes situées dans les cités, les villes ou les villages, et qui, pour les fins de la compilation, sont incluses avec les fermes des subdivisions adjacentes.

Il arrive souvent que les termes "population agricole" et "population rurale" sont employés comme synonymes. Pour les fins du recensement, la population rurale est cette partie de la population qui demeure en dehors des limites des cités, villes ou villages incorporés, tandis que la population

of the population which lived on farms, regardless of where the farms were located. A certain proportion of the rural population had no direct connection whatsoever with the farm, and, particularly in suburban areas, it more closely resembled the urban than the farm population. In the province of Ontario, 47·9 per cent of the rural population was living on farms on June 2, 1941.

Farm Workers.—This term refers to the number of persons working on the farm, exclusive of housework, during the week ending May 31, 1941. It includes (a) members of the operator's family 14 years of age and over, who were working on the farm during that week, and not receiving regular wage payments, and (b) all persons working for wages and hired either by the year, month or day. The inquiries on farm labour also elicit information concerning the number of weeks of hired labour in 1940, and the amount paid this labour in cash or in kind.

Work off the Farm and Outside Income.—The purpose of these inquiries was to obtain information concerning (a) the number of farm operators who work off the farm in order to supplement their farm income, (b) the occupation followed by the operator in doing this work, (c) the gross returns from the work done off the farm, and (d) the gross income from other outside sources. Gross returns from work off the farm includes the returns from work done by members of the operator's family or by hired labour with or without the aid of farm facilities. Income from other outside sources includes the gross income from boarders, lodgers, overnight cabins, campers, sale of farm machinery, and the amount received as insurance for fire and hail damages, etc. Income from investments or other private sources are not included.

Farms Reporting.—This term as used throughout the bulletin refers to the number of farms that reported the item in question.

Area of Occupied Land.—This item includes all lands (in the municipality) on which the operator conducted farming operations of any kind, whether they were cropped, used for pasture, in woodland or idle, and regardless of whether they were owned, rented, leased or managed for others.

Improved Land.—This term is employed in the census to include all land that had been brought under cultivation and was at the date of the census, suitable for the plough. It includes land used for growing crops, as improved pasture, land occupied by buildings, laneways, barnyards, etc., and any other improved land on the farm that was idle in 1941.

Area Under Crops.—This item includes all improved lands used for the growing of field, garden, nursery and orchard crops. In instances where two or more crops were taken from the same area in one season, the area was reported only once for this inquiry. This double cropping and intercropping (see section on Fruit and Vegetable Farms, page xiii) will explain why in certain subdivisions (Table 52) the total area under field crops, market gardens, fruits and nursery crops exceeds the area "Under Crops".

agricole est cette partie de la population demeurant sur les fermes, sans égard à l'endroit où les fermes sont situées. Une certaine proportion de la population rurale n'a aucun contact direct avec la ferme et, particulièrement dans les régions suburbaines, elle se rapproche plus de la population urbaine que de la population agricole. Dans la province d'Ontario, 47·9 p.c. de la population rurale demeurait sur des fermes le 2 juin 1941.

Travailleurs agricoles.—Ce terme s'applique au nombre de personnes travaillant sur la ferme, à l'exclusion du travail ménager, pendant la semaine finissant le 31 mai 1941. Il comprend (a) les membres de la famille de l'exploitant ayant 14 ans et plus, qui travaillaient sur la ferme pendant cette semaine et qui ne touchaient pas de gages réguliers, et (b) toutes les personnes travaillant à gages et engagées à l'année, au mois ou à la journée. Les questions sur la main-d'œuvre agricole mettant également à découvert des renseignements concernant le nombre de semaines de main-d'œuvre louée en 1940 et le montant payé pour cette main-d'œuvre en espèce ou en nature.

Travail en dehors de la ferme et revenu de l'extérieur.—Le but de ces questions est de se procurer des renseignements concernant (a) le nombre d'exploitants de fermes qui travaillent en dehors de la ferme afin d'augmenter leur revenu, (b) ce que fait l'exploitant dans ce travail, (c) les revenus bruts découlant du travail accompli en dehors de la ferme, et (d) le revenu brut découlant d'autres sources extérieures. Les revenus bruts découlant du travail exécuté en dehors de la ferme comprend les revenus du travail fait par les membres de la famille de l'exploitant ou par la main-d'œuvre louée, avec ou sans l'aide de l'outillage agricole. Le revenu découlant d'autres sources extérieures comprend le revenu brut tiré des pensionnaires, des locataires, des cabines de touristes, des campeurs, de la vente de machines agricoles, et le montant reçu comme assurance-feu et dommages causés par la grêle, etc. Le revenu découlant de placements ou d'autres sources privées n'est pas inclus.

Fermes faisant rapport.—Ce terme, tel qu'employé dans le bulletin, se rapporte au nombre de fermes qui ont répondu à l'item en question.

Superficie de terre occupée.—Cet item comprend toutes les terres (dans la municipalité) sur lesquelles l'exploitant a exécuté des travaux agricoles quelconques, qu'elles aient été mises en cultures, utilisées pour le pâturage, le bois ou inexploitées, et qu'elles aient été possédées, louées, prises à bail ou gérées pour d'autres personnes.

Terre défrichée.—Ce terme employé dans le recensement s'applique à toute la terre qui a été mise en culture et qui, à la date du recensement était propre à être labourée. Il comprend la terre employée pour la culture des récoltes, comme le pâturage amélioré, la terre occupée par les bâtiments, les chemins, les cours, etc., et toute autre terre défrichée sur la ferme qui n'était pas exploitée en 1941.

Superficie en culture.—Cet item comprend toutes les terres défrichées employées pour les grandes cultures, le jardinage, les pépinières et les vergers. Dans les cas où deux récoltes ou plus ont été prises sur la même superficie dans une saison, cette superficie n'a été signalée qu'une fois dans l'enquête. Ces cultures doubles et intercalaires (voir section sur les fermes à fruits et à légumes, page xiii) expliqueront pourquoi dans certaines subdivisions (voir tableau 52) la superficie totale en grandes cultures, jardins maraîchers, fruits et récoltes de pépinière dépasse la superficie "en culture".

Crop Failure.—This inquiry refers to the area sown or planted for harvest in 1940, but from which no crop whatever was harvested.

Pure-bred Animals.—All animals that were registered or were eligible for registration as pure-breds are included under this heading.

Farm Value.—This term denotes the value of land and buildings used only for agricultural purposes. It is an estimate, by the farm operator, of the value for which the farm would sell provided there was a willing buyer and seller. The value of buildings is not intended to be the original cost or the replacement value, but a fair estimate of the buildings as they stood at the date of the census.

Farm Indebtedness.—These inquiries elicit information on (a) mortgages and agreements for sale on all buildings and land owned by the farm operator, and (b) debts of the farm operator secured by liens.

The amount of mortgages and agreements for sale include all debts represented by agreements for deed or contracts for title, deeds of trust, judgments and by any other legal instrument that partakes of the nature of a mortgage or agreement for sale. In instances where the owner operated land outside the enumeration area in which he lived, any mortgage or agreement for sale against such property was reported on the resident farm.

Debts secured by liens include liens on crops, live stock or implements, and incurred by the farm operator regardless of whether he was the owner, part owner, tenant or manager of the farm.

Farm Expenses.—Each farm operator was asked to state the expenses incurred, during 1940, in the running of all lands he operated, regardless of whether these lands were located in the enumeration area in which he resided or elsewhere (see section on "Resident" and "Non-resident" farms, page xiii). The value of goods received as relief, such as seed, feed, etc., was included, also any cash expenditures incurred in doing work with horses or equipment off the farm.

Feed.—The expenditures for "Feed" include purchases of hay, grain, mill feed or any other products for use as feed for domestic animals or poultry.

Fertilizers.—The item "Fertilizers" includes the amount expended for manures and fertilizers.

Seed.—The expenditures for "Seed" include the amount expended for field, grass and garden seeds.

Purchases and Repairs of Farm Machinery.—This item includes the purchases of farm implements and machinery and expenditures for repairs and repair work on machinery and equipment.

Building Materials.—The amount expended for "Building Materials" includes expenditures for all material used for the construction or repairs to buildings, fences, etc.

Récoltes manquées.—Cette question se rapporte à la superficie ensemencée ou plantée pour la moisson de 1940, mais d'où il n'a été moissonné aucune récolte.

Animaux de race.—Tous les animaux qui sont enregistrés ou qui sont éligibles à l'enregistrement comme étant de race sont inclus sous cet en-tête.

Valeur de la ferme.—Ce terme signifie la valeur de la terre et des bâtiments employés seulement pour les fins agricoles. C'est une estimation faite par l'exploitant de la valeur marchande de la ferme pourvu qu'il y ait un vendeur et un acheteur libres. La valeur des bâtiments n'est pas destinée à représenter le coût original ou la valeur de remplacement, mais une estimation assez exacte des bâtiments tels qu'ils étaient à la date du recensement.

Dettes de la ferme.—Ces questions mettent à jour des renseignements sur (a) les hypothèques et les conventions de vente sur tous les bâtiments et la terre que possède l'exploitant de la ferme, et (b) les dettes de l'exploitant assurées par liens.

Le montant des hypothèques et les conventions de vente comprend toutes les dettes représentées par des conventions de mutation de propriété ou contrats, actes fiduciaires, jugements et tous autres instruments légaux qui tiennent de la nature d'une hypothèque ou d'une convention de vente. Dans les cas ou le propriétaire exploite de la terre en dehors de la région de dénombrement où il demeure, toute hypothèque ou convention de vente sur cette propriété est déclarée sur la ferme où il réside.

Les dettes protégées par des droits de rétention ou liens comprennent les liens sur les récoltes, les bestiaux ou l'outillage agricole, et contractées par l'exploitant de la ferme sans égard au fait qu'il soit propriétaire, mi-propriétaire, locataire ou gérant de la ferme.

Dépenses de la ferme.—Il a été demandé à chaque exploitant de ferme de déclarer les dépenses faites pendant l'année 1940 dans l'administration de toutes les terres qu'il exploite, sans égard au fait que ces terres soient situées dans la région de dénombrement dans laquelle il réside ou ailleurs (voir la section sur les fermes "habitées" et "inhabitées", page xiii). La valeur des marchandises reçues comme secours, tels que graines de semence provende, etc., est incluse, de même que les déboursés en espèces pour les travaux avec des chevaux ou de l'outillage en dehors de la ferme.

Provende.—Les dépenses pour la "provende" comprennent les achats de foin, grain, issues de meunerie ou tout autre produit destinés à l'alimentation des animaux domestiques ou des volailles.

Engrais chimiques.—L'item "engrais chimiques" comprend le montant déboursé pour les fumiers et les engrais chimiques.

Graines de semence.—Les dépenses pour "graines de semence" comprennent le montant déboursé pour les graines de grande culture, d'herbe et de jardin.

Achats et réparations de machines agricoles.—Cet item comprend les achats d'outillage et de machines agricoles et les dépenses pour réparations et travail de réparation sur les machines et l'outillage.

Matériaux de construction.—Le montant déboursé pour les "matériaux de construction" comprend les dépenses pour tous les matériaux employés pour la construction ou la réparation des bâtiments, clôtures, etc.

Custom Work.—The item "Custom Work" includes all expenditures for hired custom work done on the farm, such as ploughing, threshing, feed grinding, wood sawing, etc.

Fuel and Oil.—The item of expense "Fuel and Oil" includes the total cost of fuel and oil used for operating tractors, trucks, combines and gasoline engines. It does not include purchases of fuel and oil used in automobiles.

Taxes.—"Taxes" include only real estate taxes levied in 1940 on buildings and land operated by the owner.

Fruit Nursery Stock.—The expenses for "Fruit Nursery Stock" include the amount expended in 1940 for the purchase of nursery stock, such as orchard trees and small fruit plants.

Fruit and Vegetable Supplies.—Included in the expense item, "Fruit and Vegetable Supplies", are the amounts expended for spray materials, sashes, glass for greenhouses and frames, packages, fuel for greenhouses, etc. This item also includes any expenditures for formaldehyde and other chemicals used for treating grains for smut, etc., or as an insecticide.

Farm Labour.—The amount expended for "Farm Labour" includes not only the wages paid in cash, but also the estimated value (by the farm operator) of house rent and/or room and board furnished hired farm labourers. Wages paid hired employees in connection with custom work performed off the farm are included.

Rent.—The expense item, "Rent", includes rent paid in cash, and an estimate (by the farm operator) of the value of rent paid in kind and/or on a share basis.

Other Expenses.—This item includes the amounts expended for telephone, electricity, freight, cartage, horseshoeing, veterinary fees and medicines, bees and apiary equipment, fur-farming equipment and food for fur-bearing animals kept on the farm, hail and fire insurance fees for one year, registration and breeding fees, etc.

Gross Farm Revenue.—This term includes not only the value of products sold or to be sold off the farm in 1940, but also the estimated value of all farm products consumed or used by the farm household during the year. The gross returns from work performed off the farm, the gross income from boarders, lodgers, campers, etc., the amount received from the sale of farm machinery and insurance payments for hail and fire damage, etc., are also included.

Type of Farm.—The information concerning farm revenues was asked in order to supply a means by which all farms could be classified as to type, using as a basis, the main source or sources of revenue in 1940. When the gross revenue was determined, each farm was classified as belonging to one of ten main types. Receipts from the sale of farm machinery, from insurance for hail and fire damage, and income received by farm operators who reported two hundred or more days work off the farm, were not used to determine the type of

Travail à forfait.—L'item "travail à forfait" comprend toutes les dépenses faites pour la main-d'œuvre engagée à forfait sur la ferme, telles que le labour, le battage, la mouture des fourrages, le sciage du bois, etc.

Combustible et huile.—L'item de dépense "combustible et huile" comprend le coût total du combustible et de l'huile employés dans la conduite des tracteurs, camions, combines et moteurs à gazoline. Il ne comprend pas les achats de combustible et d'huile employés dans les automobiles.

Taxes.—Les "taxes" comprennent seulement les taxes foncières prélevées en 1940 sur les bâtiments et la terre exploitée par le propriétaire.

Plants d'arbres fruitiers.—Les dépenses pour les "plants d'arbres fruitiers" comprennent le montant déboursé en 1940 pour l'achat de plants de pépinière, tels que les arbres de verger et les plants d'arbres à petits fruits.

Fournitures pour fruits et légumes.—Dans l'item de dépense "fournitures pour fruits et légumes" sont compris les montants déboursés pour les substances de pulvérisation, les châssis, les vitres de serres et les cadres, emballages, combustible pour serres, etc. Cet item comprend également toutes les dépenses pour l'achat de formaldéhyde et autres ingrédients chimiques employés pour traiter les grains contre le charbon, etc., ou comme insecticide.

Main-d'œuvre agricole.—Le montant déboursé pour la "main-d'œuvre agricole" ne comprend pas seulement les gages payés en espèces, mais aussi la valeur estimative (par l'exploitant de la ferme) du loyer de la maison et/ou de la chambre et de la pension fournies aux travailleurs engagés sur la ferme. Les gages payés aux employés relativement au travail à forfait exécuté en dehors de la ferme sont inclus.

Loyer.—Cet item de dépense comprend le loyer payé en espèces, et une estimation (par l'exploitant de la ferme) de la valeur du loyer payé en nature et/ou sur une base de participation.

Autres dépenses.—Cet item comprend les montants déboursés pour le téléphone, l'électricité, le transport par voie ferrée, le camionnage, le ferrage des chevaux, les honoraires vétérinaires et les médicaments, les abeilles et l'outillage de rucher, l'outillage et les aliments pour l'élevage des animaux à fourrure gardés sur la ferme, les primes annuelles d'assurance contre la grêle et le feu, les frais d'enregistrement et d'accouplement, etc.

Revenu brut de la ferme.—Ce terme comprend non seulement la valeur des produits vendus ou destinés à la vente en dehors de la ferme en 1940, mais aussi la valeur estimative de tous les produits de la ferme consommés ou employés par la famille du cultivateur pendant l'année. Les recettes brutes provenant du travail accompli en dehors de la ferme, le revenu brut provenant des pensionnaires, des locataires, des campeurs, etc., le montant reçu de la vente de machines agricoles et les primes d'assurance contre la grêle et le feu, etc., sont également inclus.

Type de ferme.—Les renseignements relatifs aux revenus de la ferme ont été demandés afin de trouver un moyen par lequel toutes les fermes puissent être classées d'après leur type, en se servant comme base de la ou des principales sources de revenu en 1940. Lorsque le revenu brut est déterminé, chaque ferme est classée comme faisant partie de l'un des dix types principaux. Les recettes provenant de la vente de machines agricoles, de l'assurance contre la grêle et le feu, et le revenu touché par les exploitants de ferme qui ont fait

farm. These amounts were, however, included in the gross farm revenues. A small number of farms, mainly "non-resident" farms used for pasture, and farms just beginning operations in 1941, were not assigned to any particular type, but were included in the total number of farms. The ten types of farms are as follows:

(1) **"Grain and hay farms"**, are farms where 50 p.c. or more of the gross revenue was derived from the sale of grains, hay and other forage crops, including seeds. Where 40 p.c. of the gross revenue on a "grain and hay farm" was derived exclusively from the sale of wheat, the farm was classified as a "wheat farm".

(2) **"Potatoes, roots and other field crops farms"**, are farms where 50 p.c. or more of the gross revenue was derived from the sale of potatoes, roots, root seeds and other field crops, such as tobacco, fibre flax, etc.

(3) **"Vegetable, fruit and nursery products farms"**, are farms where 50 p.c. or more of the gross income was derived from the sale of vegetables, small or tree fruits, and greenhouse or nursery products.

(4) **"Dairy farms"**, are farms where 50 p.c. or more of the gross revenue was obtained from the sale of dairy products, sold as whole milk, cream or butter.

(5) **"Poultry farms"**, are farms where 50 p.c. or more of the gross revenue was derived from the sale of poultry and eggs. Farms which specialized in the sale of day-old chickens are included in this type.

(6) **"Live stock farms"**, are farms where the revenue from the sale of horses, cattle, sheep, swine, goats and fur-bearing animals constituted 50 p.c. or more of the gross revenue.

(7) **"Forest and apiary products farms"**, are farms where 50 p.c. or more of the gross revenue was obtained from the sale of forest products, maple sugar or syrup, and honey or beeswax.

(8) **"Mixed farms"**, are farms where the revenue from two or more of the other main types of products was required to produce 50 p.c. or more of the gross revenue.

(9) **"Part-time farms"**, are farms where 50 p.c. or more of the gross revenue was obtained from work performed off the farm (such as lumbering, fishing, road work, custom work), from overnight lodgers, boarders, campers, etc. (see page xvi).

(10) **"Subsistence and combinations of subsistence farms":**—Farms on which the value of products consumed or used by the farm household amounted to 50 p.c. or more of the gross farm revenue were classed as "Subsistence Farms". "Combinations of Subsistence Farms", are farms where the value of products used or consumed and the revenue from another main type, such as poultry, live stock, etc., were required to form 50 p.c. or more of the gross farm revenue.

rapport de deux cents jours de travail ou plus en dehors de la ferme, ne sont pas comptées pour déterminer le type de ferme. Cependant, ces montants sont inclus dans le revenu brut de la ferme. Un petit nombre de fermes, principalement des fermes "inhabitées" employées pour le pâturage, et des fermes dont l'exploitation n'était qu'à ses débuts en 1941, ne sont attribuées à aucun type particulier, mais elles sont incluses dans le nombre total de fermes. Les dix types de fermes sont les suivants:

(1) **Les "fermes à grain et à foin"** sont les fermes où 50 p.c. ou plus du revenu brut provient de la vente des grains, du foin et d'autres récoltes fourragères, y compris les graines de semence. Là où 40 p.c. du revenu brut sur une "ferme à grain et à foin" provient exclusivement de la vente du blé, la ferme est classée comme "ferme à blé".

(2) **Les "fermes à pommes de terre, racines et autres récoltes de grande culture"** sont celles où 50 p.c. ou plus du revenu brut provient de la vente des pommes de terre, racines, graines de plantes racines et autres récoltes de grande culture, comme le tabac, le lin à filasse, etc.

(3) **Les "fermes à légumes, fruits et produits de serre"**, sont celles où 50 p.c. ou plus du revenu brut provient de la vente de légumes, des petits ou des gros fruits, et des produits de serre ou de forcerie.

(4) **Les "fermes laitières"** sont celles où 50 p.c. ou plus du revenu brut découle de la vente de produits laitiers, vendus comme lait entier, crème ou beurre.

(5) **Les "fermes avicoles"** sont celles où 50 p.c. ou plus du revenu brut provient de la vente des volailles et des œufs. Les fermes qui se spécialisent dans la vente des poussins d'un jour sont incluses dans ce type.

(6) **Les "fermes à bestiaux"** sont celles dont le revenu provenant de la vente de chevaux, bêtes à cornes, moutons, porcs, chèvres et animaux à fourrure constitue 50 p.c. ou plus du revenu brut.

(7) **Les "fermes à produits forestiers et apicoles"** sont celles où 50 p.c. ou plus du revenu brut provient de la vente de produits forestiers, du sucre ou du sirop d'érable et du miel ou de la cire d'abeille.

(8) **Les "fermes mixtes"** sont celles où le revenu provenant de deux ou plus des autres types principaux de produits est nécessaire pour produire 50 p.c. ou plus du revenu brut.

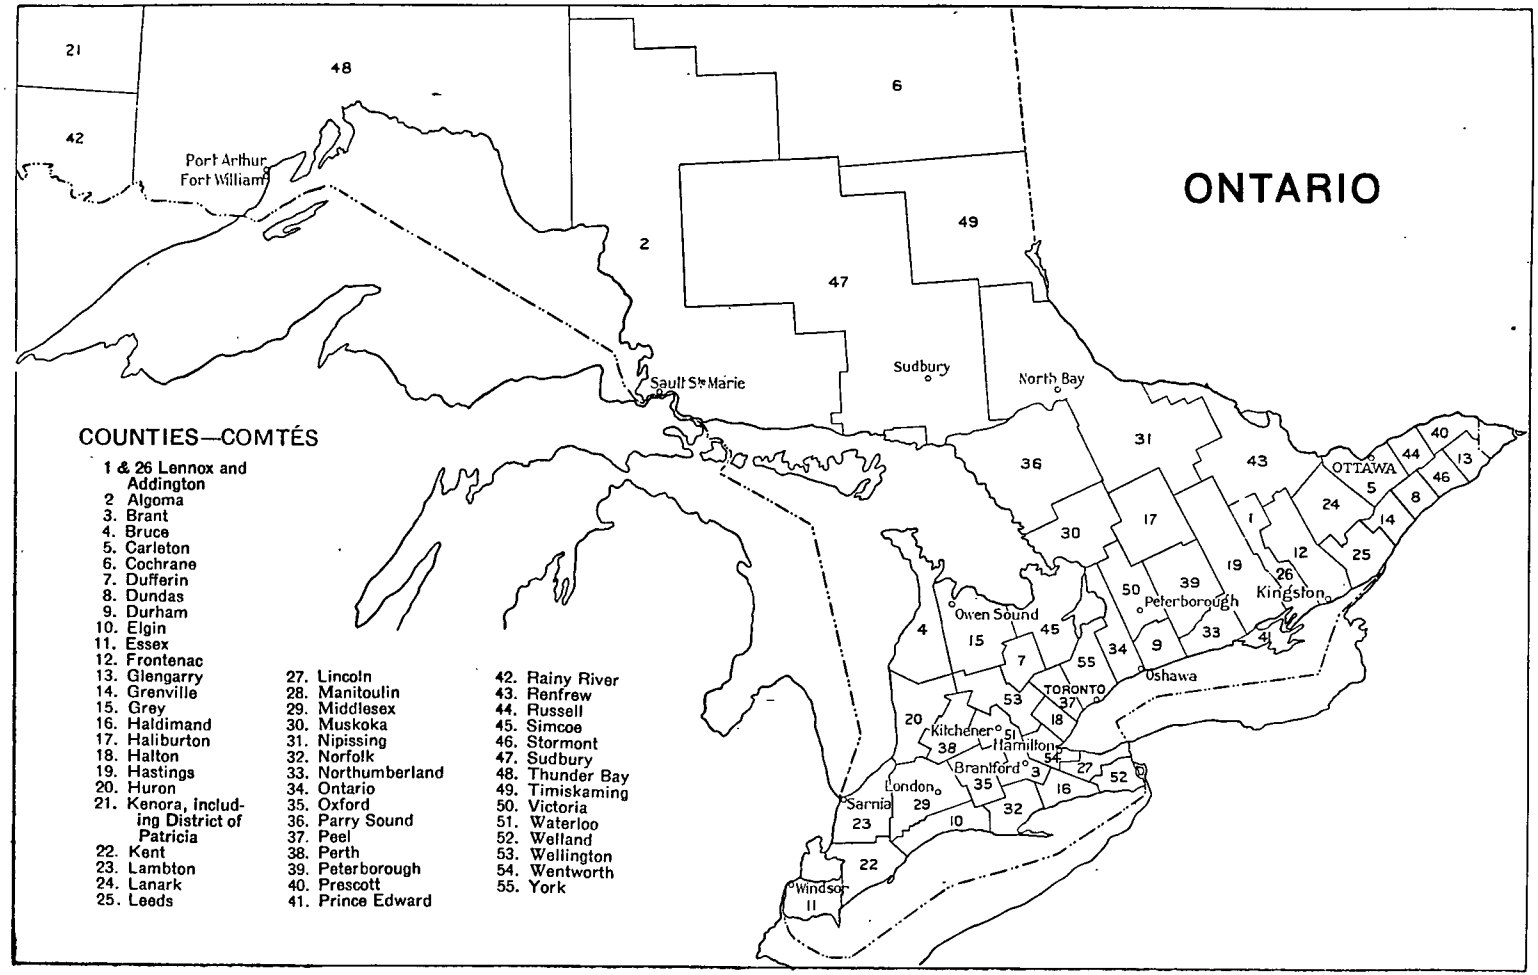

(9) **Les "fermes à temps partiel"** sont celles où 50 p.c. ou plus du revenu brut provient du travail accompli en dehors de la ferme (tel que le débit du bois, la pêche, les travaux de voirie, le travail à forfait), des touristes, pensionnaires, campeurs, etc. (voir page xvi).

(10) **Les "fermes vivrières et combinées":**—Les fermes où la valeur des pròduits consommés ou employés par la famille du cultivateur s'élève à 50 p.c. ou plus du revenu brut sont classées comme "Fermes vivrières et combinées". Les "Fermes combinées" sont celles où la valeur des produits employés ou consommés et où le revenu provenant d'un autre type principal, tel que volailles, bestiaux, etc., est nécessaire pour constituer 50 p.c. ou plus du revenu brut.

Tabular Index. A tabular index will be found in Appendix B. This index is intended to show at a glance the tables which are included on each subject, and the other subjects by which each is cross-classified. For example, the reader interested in farm population looks along the heading at the top of the page until he finds "Farm Population" and then searches that column for places marked "X". There are seven of these, indicating seven tables of farm population; one a historical table, one showing the farm population by county or census division, one showing the population on farms in the various census subdivisions, three tables of cross-classifications with size, tenure and type of farm, and a table showing the population on farms according to the "racial origin" of the farm operators. These tables are Tables 1, 28, 51, 78, 80, 81, 82 and according to the index will be found on pages 4, 20, 144 to 171, 268, 270 and 271 respectively.

Index des tableaux. Un index des tableaux se trouve à l'appendice B. Cet index permet de voir d'un coup d'œil les tableaux sur chaque sujet et les autres rubriques contenues sous chacun d'eux en classifications recoupées. Par exemple, le lecteur que la population des fermes intéresse parcourt l'en-tête de la page jusqu'à ce qu'il trouve "Population des fermes", puis il cherche dans la colonne les endroits marqués "X". Il y en a sept, ce qui veut dire qu'il y a sept tableaux sur la population des fermes: un tableau historique; un tableau sur la population des fermes par comté ou division de recensement; un tableau sur la population des fermes dans les diverses subdivisions de recensement; trois tableaux sur la population des fermes recoupée selon la grandeur, la tenure et le type de ferme; un tableau sur la population des fermes selon l'"origine raciale" des exploitants de ferme. Ce sont les tableaux 1, 28, 51, 78, 80, 81, 82 et, d'après l'index, ils se trouvent aux pages 4, 20, 144 à 171, 268, 270 et 271 respectivement.

58	Animal products	$	(1)	(1)	(1)	41,568,344

(1) Not available. (2) For comparison with the later censuses, deductions have been made as follows: 69,413 plots under 1 acre in 1891; 20,073 in 1901; and 14,693 in 1911. (3) "Full ownership" means that the operator holds the title to all the land which he operates. It does not necessarily mean that the farm is free of debt. (4) Estimate made in 1931. (5) Includes farm gardens and orchards, see page xiii for "Explanation of Terms". (6) Includes area in gardens. (7) Includes area in nursery. (8) Enumerated on "Fruit and Vegetable" schedule. (9) Nursery only. (10) Small fruits only. (11) In 1921, idle land was included with fallow. (12) From 1871 to 1941, figures include live stock and farm products elsewhere than on farms. (13) From 1871 to 1911, the item was "milch cows". (14) Cows and heifers 2 years and over kept for milk production. (15) Includes automobiles. (16) Does not include farms operated by share tenants and by cash and share tenants. (17) Includes estimated value of rent paid in kind and on a share basis. (18) On buildings and land operated by the owner. (19) Limited to stock raised on farms reporting. (20) Includes value of stock sold alive or slaughtered elsewhere than on farms. (21) Does not include fur-bearing animals and pelts sold (see Table 29).

TABLEAU 1. Population, exploitations agricoles, tenure, superficies, état de la terre des fermes occupées, bestiaux et valeurs des fermes, 1871-1941; dépenses et valeur des produits des fermes, 1900-1940, Ontario

(1) Inconnu. (2) Pour comparaison avec les derniers recensements, ont été éliminés: 69,413 lopins de moins de 1 acre en 1891; 20,073 en 1901; et 14,693 en 1911. (3) "Propriété entière" signifie que l'exploitant possède le titre sur toute la terre qu'il exploite, ce qui ne veut pas dire que la ferme est exempte de dette. (4) Estimation faite en 1931. (5) Comprend jardins de ferme et vergers, voir page xiii pour "Explication des termes". (6) Comprend la superficie en jardins. (7) Comprend la superficie en pépinière. (8) Enumérés sur le questionnaire des "Fruits et légumes". (9) Pépinière seulement. (10) Petits fruits seulement. (11) En 1921, la terre en repos est comprise avec jachère. (12) De 1871 à 1941 les totaux incluent les bestiaux et les produits de la ferme et ailleurs que sur les fermes. (13) De 1871 à 1911, l'item ne mentionnait que vaches laitières. (14) Vaches et génisses de 2 ans et plus, gardées principalement pour le lait. (15) Comprend automobiles. (16) Ne comprend pas les fermes exploitées par les locataires à parts, ou les locataires partie à parts et partie en argent. (17) Comprend la valeur estimative du loyer payé en espèces et sur une base de participation. (18) Sur les bâtiments et la terre exploitée par le propriétaire. (19) Limité aux bestiaux élevés sur les fermes faisant rapport. (20) Comprend la valeur des bestiaux vendus vivants ou abattus ailleurs que sur les fermes. (21) Ne comprend pas les animaux à fourrure et les pelleteries vendus (voir tableau 29).

(3) Includes alfalfa, clovers and all cultivated grasses—Comprend luzerne, trèfles et toutes herbes cultivées.
(4) Not available—Inconnu. (5) Includes millet and Hungarian grass—Comprend millet et mil de Hongrie.
(6) Millet and Hungarian grass are included with hay, cultivated—Millet et mil de Hongrie sont compris dans foin cultivé.
(7) Includes root seeds—Comprend graines de racines.

TABLE 12. Value of field crops, 1910-1940, Ontario
TABLEAU 12. Valeur des grandes cultures, 1910-1940, Ontario

Field crop—Grande culture	1910	1920	1930	1940
	$	$	$	$
All field crops—Toutes grandes cultures	**140,786,055**	**234,776,411**	**145,048,085**	**138,568,948**
Wheat—Blé	17,090,128	30,757,005	9,486,088	13,525,413
Barley—Orge	7,414,210	10,386,594	5,437,405	4,836,300
Oats—Avoine	31,622,936	54,159,708	23,830,649	26,459,260
Rye—Seigle	806,892	1,939,642	324,699	714,035
Corn for husking—Maïs à grain	5,283,028	6,530,328	2,054,777	5,282,805
Flax for seed—Graine de lin	135,593	184,656	68,689	102,033
Buckwheat—Sarrasin	1,692,482	1,952,698	1,747,487	1,159,890
Beans and peas—Haricots et pois	4,723,167	3,326,396	2,406,704	(1)3,434,807
Mixed grains—Grains mélangés	4,889,031	12,285,607	14,221,418	(2)15,560,843
Clover and grass seed—Graine de trèfle et d'herbe	2,795,960	5,538,761	3,200,542	1,413,368
Hay, cultivated(3)—Foin cultivé(3)	39,526,170	69,400,590	48,489,511	35,334,213
Marsh hay—Foin des marais	(4)	264,254	192,729	254,998
Other fodder crops—Autres cultures fourragères	(5)7,454,522	(5)14,287,407	9,919,812	8,466,703
Potatoes—Pommes de terre	8,693,243	11,320,772	9,333,822	5,941,047
Turnips and swedes—Navets et choux de Siam	3,318,711	4,062,384	3,409,396	3,651,078
Other field roots—Autres racines	4,111,397	5,362,538	4,006,953	(7)3,657,467
Tobacco—Tabac	1,197,739	2,615,388	6,628,158	8,202,672
Flax for fibre—Lin fibreux	(4)	400,784	22,482	409,623
Other field crops—Autres grandes cultures	30,846	899	266,764	162,393

(1) Includes soybeans—Comprend fèves de soya. (2) Mixed or other grains—Grains mélangés ou autres.
(3) Includes alfalfa, clovers and all cultivated grasses—Comprend luzerne, trèfles et toutes herbes cultivées.
(4) Not available—Inconnu. (5) Includes millet and Hungarian grass—Comprend millet et mil de Hongrie.
(6) Millet and Hungarian grass are included with hay, cultivated—Millet et mil de Hongrie sont compris dans foin cultivé.
(7) Includes root seeds—Comprend graines de racines.

TABLE 13. Fruit trees on farms, 1901-1941, Ontario
TABLEAU 13. Arbres fruitiers sur les fermes, 1901-1941, Ontario

Fruit trees—Arbres fruitiers	1901	1911	1921	1931	1941(1)
	No.—nomb.	No.—nomb.	No.—nomb.	No.—nomb.	No.—nomb.
Apple trees, total(2)—Pommiers, total(2)	9,541,619	8,783,609	5,544,964	4,341,771	2,866,731
Not of bearing age—Trop jeunes pour rapporter	1,989,983	2,073,576	994,303	631,304	747,006
Of bearing age—D'âge à rapporter	7,551,636	6,710,033	4,550,661	3,710,467	1,140,120
Peach trees, total—Pêchers, total	1,282,497	1,684,647	1,093,814	926,164	2,063,959
Not of bearing age—Trop jeunes pour rapporter	470,772	890,455	159,675	319,488	906,899
Of bearing age—D'âge à rapporter	811,725	794,192	934,139	606,676	1,117,941
Pear trees, total—Poiriers, total	844,973	743,137	448,043	450,722	700,423
Not of bearing age—Trop jeunes pour rapporter	280,175	237,769	116,772	109,108	282,041
Of bearing age—D'âge à rapporter	564,798	505,368	331,271	341,614	339,999
Plum trees, total—Pruniers, total	1,685,719	1,130,027	(3)726,768	534,588	(3)564,381
Not of bearing age—Trop jeunes pour rapporter	686,628	345,991	(3)139,700	97,572	(3)188,916
Of bearing age—D'âge à rapporter	999,091	784,036	(3)587,068	437,016	(3)287,070
Cherry trees, total—Cerisiers, total	684,348	834,762	538,865	453,446	556,491
Not of bearing age—Trop jeunes pour rapporter	237,792	327,894	117,006	98,172	196,232
Of bearing age—D'âge à rapporter	446,556	506,868	421,859	355,274	269,060

(1) The age breakdown of trees, on farms with less than 50 fruit trees, was not obtained in 1941, although the totals for each kind include trees on such farms. For purposes of comparison, apple and crab-apple trees under 10 years of age; peach, pear, plum and cherry trees under 5 years of age, were considered "not of bearing age"—La classification recoupée des arbres par âge, sur les fermes ayant moins de 50 arbres fruitiers, n'a pas été obtenue en 1941, mais les totaux pour chaque espèce comprennent les arbres sur ces fermes. Pour fin de comparaison, les pommiers et les pommetiers de moins de 10 ans; les pêchers, les poiriers, les pruniers et les cerisiers de moins de 5 ans, ont été considérés "trop jeunes pour rapporter".
(2) Includes crab-apple trees—Comprend pommetiers.
(3) Includes apricot and prune trees—Comprend abricotiers et pruniers.

TABLE 14. Production of fruits and maple products on farms, 1900-1940, Ontario
TABLEAU 14. Récolte de fruits et produits de l'érable sur les fermes, 1900-1940, Ontario

Item	Unit — Unité	1900(1)	1910(1)	1920	1930	1940(2)

(1) Includes automobiles.
(2) Reported on buildings and land operated by the owner.
(3) "Full ownership" means that the operator holds the title to all the land which he operates. It does not necessarily mean that the farm is free of debt.
(4) Land and buildings.
(5) Liens on crops, live stock or implements.
(6) For home use or for sale.
(7) Includes hides sold.
(8) Includes farm gardens and orchards.
(9) Enumerated on "Fruit and Vegetable" schedule.

TABLEAU 29. Valeurs des fermes, hypothèques et dettes, 1941, valeur des produits de la ferme, 1940, et état de la terre occupée, 1941, par comté, Ontario

(1) Includes automobiles.
(2) Reported on buildings and land operated by the owner.
(3) "Full ownership" means that the operator holds the title to all the land which he operates. It does not necessarily mean that the farm is free of debt.
(4) Land and buildings.
(5) Liens on crops, live stock or implements.
(6) For home use or for sale.
(7) Includes hides sold.
(8) Includes farm gardens and orchards.
(9) Enumerated on "Fruit and Vegetable" schedule.

(1) Comprend automobiles.
(2) Sur les bâtiments et la terre exploitée par le propriétaire.
(3) "Propriété entière" signifie que l'exploitant possède le titre sur toute la terre qu'il exploite, ce qui ne veut pas dire que la ferme est exempte de dette.
(4) Terre et bâtiments.
(5) Liens sur récoltes, bétail ou instruments.
(6) Pour consommation ménagère ou pour vente.
(7) Comprend les peaux vendues.
(8) Comprend jardins de ferme et vergers.
(9) Enumérés sur le questionnaire des "Fruits et légumes".

(1) Persons working on the farm exclusive of house work during the week ending May 31, 1941.
(2) Persons 14 years of age and over not receiving wages.
(3) Includes managers and members of the operator's family receiving wage payments.
(4) Includes data for 1 farm located in each of Cartier and Chapleau Subdivisions.
(5) Includes agricultural data for Township of Neebing only. Similar data for Townships of Blake, Crooks and Pardee are included in Other parts.

(1) Personnes travaillant sur la ferme à l'exclusion des travaux du ménage durant la semaine finissant le 31 mai 1941.
(2) Personnes 14 ans et plus ne recevant pas de gages.
(3) Comprend les gérants et les membres de la famille de l'exploitant recevant des gages en paiement.
(4) Comprend les données relatives à 1 ferme située dans chacune des municipalités de Cartier et de Chapleau.
(5) Comprend les données agricoles pour le canton de Neebing seulement. Ces mêmes données pour les cantons de Blake, Crooks et Pardee sont comprises dans Autres parties.

CENSUS OF AGRICULTURE

(GENERAL FARM SCHEDULE)

DOMINION BUREAU OF STATISTICS

R. H. COATS, DOMINION STATISTICIAN

EIGHTH CENSUS OF CANADA

1941

ENUMERATOR'S RECORD

Number of this farm in order of visitation.....

Page and line on which name of operator is written on population schedule. Page..... Line.....

Date enumerated, day.....month.....

Signed.....
(Enumerator)

Checked by.....
(Commissioner)

Notice to the Enumerator.—THIS IS A CONFIDENTIAL REPORT and may be used only for the compilation of statistics. Any person employed in the execution of any duty under the Statistics Act, who divulges the contents of any schedule or who, through neglect or carelessness, causes any schedule or part of schedule to be seen by others, shall be liable to fine or imprisonment or both. (8 and 9 George V, C. 43, S. 35.)

1. All questions must be answered whenever applicable. If farm records are kept, take the information from them, if not, obtain the most accurate returns that circumstances will permit. Consult your Book of Instructions freely.

2. Farm Operator.—All replies on this schedule should relate to the farm, occupied on June 2, 1941, by the person named in inquiry No. 1. The term "Operator" is employed in the census to designate the person who is directly responsible for the agricultural operations, whether as owner, tenant, cropper or hired manager.

3. A Farm for Census purposes is all the land located in any one sub-district which is directly farmed by one person conducting agricultural operations either by his own labour or with the assistance of members of his household or of hired employees. It may consist of a single tract of land, or of a number of separate tracts, held under different tenures. In order to be reported as a farm such land must be of one acre or more in extent and have produced in 1940, agricultural products to the value of $50 or more, or be under crops or employed for pasture in 1941.

FARM OPERATOR, JUNE 2, 1941

1. Name.....
2. Post office address.....Age.....
3. Birthplace.....Racial origin.....
(If Canada, give province.)
4. How long have you lived in Canada (if not Canadian born)?.....years
5. How long have you operated the farm you now occupy?.....years
6. How many years have you farmed
(Include farming experience in other countries.)
(a) as owner or part owner. .....years
(b) as tenant.....years
(c) as farm labourer hired out or at home.....years

WORK OFF THIS FARM IN 1940

7. What is the main source of your (farm operator's) total income?.....
(Name the source which usually supplies the greatest proportion of your total income, whether it is from farming such as: dairying, fruit, wheat, etc., or from other sources not connected with this farm such as: road work, fishing, lumbering, carpentering, etc. Where two or more sources bring approximately equal returns, name them.)

15. Estimated value of house rent and/or room and board furnished hired farm labourers in 1940. $.....

FARM ACREAGE AND TENURE

16. Total number of acres in this farm (a) in 1941.....acres
(b) in 1940.....acres
(Give all the lands operated by the person named in inquiry No. 1 including outlying and separate fields, pasture or woodlots, which are located in your enumeration sub-district. Do not include land owned by this operator but rented to someone else. With regard to community pastures see the Book of Instructions.)

17. How many acres of this farm do you (a) own in 1941....acres
(b) rent or lease from others in 1941.....acres
(c) operate for others as a hired manager in 1941.....acres
(The sum of the answers to inquiry No. 17 (a), (b) and (c) must equal the answer to inquiry No. 16(a).)

	Number	Year of latest model	Value
24. Motor trucks on this farm			$
25. Tractors on this farm			
(a) Under 15 horse power on the drawbar			$
(b) 15 horse power and over on the drawbar			$
26. Grain combines on this farm			$
27. Threshing machines on this farm			$
28. Stationary motors on this farm (In column 2 give the aggregate horse power of the number of machines reported in column 1.) (a) Gasoline			$
(b) Electric			$

8. (a) How many days in 1940 did you (the farm operator) work for pay at work not connected with this farm? (Omit labour exchanged).....days

(b) Occupation followed on days reported under (a)..... (Such as clerk, labourer, carpenter, fisherman, lumberman, road worker, school bus driver, etc.)

(c) Gross returns from outside work $..... (Include returns from (a) and also returns from any outside work done by members of your family or hired help, with or without horses, tractors, threshing machines, combines, or any other equipment. If a son or daughter living on this farm works permanently off the farm, his or her wages should not be included in the above.)

(d) Gross income from boarders, lodgers, overnight cabins and campers.....$..... (Do not include board furnished farm labourers.)

(e) Amount received for fire and hail damage, sale of farm machinery, etc.....$.....

FARM POPULATION, JUNE 2, 1941

9. Total number of persons living on this farm on June 2, 1941. No.....

(a) Males under 14 years of age, No.....
14 years of age and over, No.....

(b) Females under 14 years of age, No.....
14 years of age and over, No.....

10. How many persons, 10 years of age and over, living on this farm on June 2, 1941, were not living on a farm in 1931? No.....

FARM LABOUR

(Exclusive of Housework)

11. How many members of the operator's family, 14 years of age and over (including the operator) were working on this farm, without receiving wage payments, during the week ending May 31st, 1941.....No. M.....F.....

12. How many persons working for wages on this farm during the week ending May 31st, 1941, were:—
(a) Hired the year round.....No. M.....F.....
(b) Hired by the month.....No. M.....F.....
(c) Hired by the day.....No. M.....F.....
(Include managers and members of the family working for wages.)

13. Number of weeks of hired labour in 1940.....weeks (If operator did custom work, include hired labour in connection with it.)

14. Total cash wages paid in 1940 for farm labour.....$..... (Include wages of managers and of labourers employed for custom work off this farm.)

18. If you rented or leased land in 1940, was the rent paid (If you were not operating this farm in 1940 and it was rented, give an estimate of the value of the rent.) (a) in cash.....$..... (b) in kind.....$..... (c) in shares.....$.....
(If the rent is paid in cash give the amount under (a); if in kind give the estimated cash value under (b); if in shares give the estimated cash value, and the share paid as ½, ⅓, ¼, etc. under (c). If taxes are paid by the operator include the amount under (a).)

19. If you operate rented farm lands in this sub-district or elsewhere give the name and address of the owner or owners.
Name.....Address.....
Name.....Address.....

LAND OPERATED OUTSIDE OF THIS SUB-DISTRICT IN 1941

(Do not include here the land included in inquiry No. 16, nor land owned by this operator outside of this enumeration sub-district but rented or leased to someone else.)

20. Do you operate any land outside of this enumeration sub-district? (Yes or no).....
If so, state: (a) Municipality, township or parish.....
Range or concession.....Lot No.....
Or in the Prairie Provinces
Sec.....Twp.....R.....M.....
Sec.....Twp.....R.....M.....
(b) Area owned.....acres
Area rented or leased.....acres

FARM VALUES, JUNE 2, 1941

21. Total value of this farm (land and buildings).....$..... (Give the amount for which this farm (see inquiry No. 16) would sell. Include the value of land and buildings used for agricultural purposes located in this sub-district, whether owned, rented, leased or managed. Do not include the value of implements, machinery, livestock, nor of land owned by you but operated by someone else.)

22. Value of all buildings on this farm. (This value should be included in inquiry No. 21.) (For Institutional farms, see Book of Instructions.).....$.....

FARM MACHINERY, JUNE 2, 1941 (For the value give the amount which you could sell this machinery for to a willing buyer. Do not include old equipment which is no longer used. Farm machinery owned on shares should be included on the farm where it is found on the date of the Census.)	Number	Year of latest model	Value
23. Automobiles on this farm.....			$.....
29. All other equipment and machinery on this farm..... (Include all other farm machinery and equipment such as: binders, mowers, seeders, cultivators, wagons, dairy equipment, home lighting equipment, garden tools, harness, etc.)	x x x	x x x	$.....
30. Total value of machinery and equipment.....	x x x	x x x	$.....

(The answer to this inquiry must equal the sum of inquiries No. 23 to 29, column 3.)

MORTGAGES, AGREEMENTS FOR SALE, LIENS, JUNE 2, 1941

(Include all mortgages and agreements for sale on land and buildings **owned and operated** by this operator whether in this sub-district or elsewhere.)

31. Total amount of (a) mortgages on this farm.....$.....
(b) agreements for sale on this farm.$.....
(Be sure to include mortgages or agreements for sale on all lands owned and operated by this farm operator. The amount reported here should include all debts secured by mortgages, deeds of trust, judgments, agreements for sale, and by any other legal instrument which partakes of the nature of a mortgage. Be sure to include mortgages or agreements for sale on outlying lands owned and operated by this operator, but not on land owned by him but operated by someone else. Include any accrued interest except the interest for the current year. Do not include debts secured by liens on crops, livestock or implements. In the case of agreements for sale where payment is made in kind, give an estimated cash value of the amount outstanding.)

32. (a) What rate of interest (contract rate) do you pay per annum?
(Write the rate in the square opposite the indicated holder of the debt.)

1. Corporation (such as loan, trust, insurance, railway companies, banks, etc.) %
2. Government (Federal or Provincial) %
3. Municipality %
4. Private individual %
5. Relative %

(b) Amount of principal and interest paid in 1940 on debt mentioned in inquiry No. 31.....$.....

33. Total debt covered by liens on crops, livestock or implements.....$.....

34. What rate of interest do you pay per annum on debts mentioned in inquiry No. 33?.....%.....

FARM GARDENS AND ORCHARDS

(Inquiries No. 35 to 38 apply only to farms **with less than** 50 fruit trees or for farms **where less than** $50 worth of vegetables or vegetable seed **(not including potatoes nor turnips)** or small fruits or nursery products were sold. For all other farms fill out a Form 2A and leave inquiries No. 35 to 38 blank.)

35. Value of all vegetables grown on this farm in 1940...$.....
(Include greenhouse and hothouse production, such as mushrooms, rhubarb, tomatoes, cucumbers, etc., (not including potatoes nor turnips).)

36. Value of all fruits grown on this farm in 1940:
(a) Small fruits..... $.....
(b) Tree fruits..... $.....

37. Value of all vegetables and fruits (tree and small) consumed on this farm in 1940:
(a) Vegetables..... $.....
(b) Fruits..... $.....
(Include only vegetables and fruits produced on this farm)

38. Number of fruit trees on this farm, June 2, 1941:
(a) apple, No..... (b) peach, No..... (c) pear, No.....
(d) plum, No..... (e) cherry, No.... (f) other, No.....

39. Cranberries (wild). Quantity harvested, lb..... $.....

40. Blueberries (wild). Quantity harvested, lb..... $.....

CO-OPERATIVE SELLING AND PURCHASING, 1940

41. Are you a member of a co-operative business association? (Yes or no).....

42. Value of products sold through co-operative organizations in 1940..... $.....

43. Value of supplies purchased through or from co-operative organizations in 1940. (Include both household goods and farm supplies.)..... $.....

Forest Products Cut on this Farm in 1940	Used on this farm		Sold

49. Maple sugar made in 1941...	lb.....	lb.....	$.....

FARM EXPENDITURES, 1940

(Include all expenses incurred in the operation of all the land operated by this operator, **whether it is located in this sub-district or elsewhere.** Include value of goods received as relief, such as seed, feed, etc., and all expenditures for 1940, whether paid for in cash or obtained on credit. If work was done off this farm with horses or equipment, include cash expenditures for feed, fuel, repairs, etc., under the proper inquiries.)

50. Amount expended in 1940 for hay, grain, mill feed and other products for use as feed for domestic animals or poultry..... $.....

51. Amount expended in 1940 for manures and fertilizers..... $.....

52. Amount expended in 1940 for field, grass and garden seeds..... $.....

53. Amount expended in 1940 for the purchase of farm implements and machinery and for repairs and repair work on machinery and equipment..... $.....

54. Amount expended in 1940 for the purchase of building materials..... $.....
(Include lumber, roofing material, cement, paint, fencing materials, etc., for use on this farm either for repairs or for new buildings, fences, etc.)

55. Amount expended in 1940 for custom work..... $.....
(Such as threshing, ploughing, harvesting, feed grinding, wood sawing, etc.)

56. Amount expended in 1940 for the purchase of binder twine..... $.....

57. Amount expended in 1940 for the purchase of fuel and oil for tractors, motor trucks, combines, gasoline engines, but not for automobiles..... $.....

58. Amount of taxes levied in 1940 on land and buildings..... $.....
(This inquiry is to be answered only for land and buildings operated by the owner, not including irrigation tax.)

59. Amount expended in 1940 for fruit nursery stock (tree and small)..... $.....

60. Amount expended in 1940 for..... $.....
(Spray materials, such as formaldehyde, copper dusts, sulphur, lime, paris green, bordeaux, nicotine sulphate, oil emulsion, blue stone; for sashes, glass for greenhouses and frames, crates, bags, barrels, boxes, hampers, stakes, fuel for greenhouses.)

61. Amount expended in 1940 for..... $.....
(Telephone, electricity, freight, express, cartage, pasturing, horseshoeing, veterinary fees and medicines, registration and breeding fees, bees and apiary equipment, fur-farming equipment and food for fur animals, hail and fire insurance (one year), ice, etc.)

CONDITION OF LAND ON THIS FARM (The sum of the answers to inquiries No. 62 and 63 must equal the answer to inquiry No. 16 (a) and (b).)	1940 acres	1941 acres
62. Area of improved land..... (Include all land that has been brought under cultivation and is now fit for the plough. The answer to this inquiry must equal the sum of inquiry No. 62 (a), (b) (c) and (d).)	.....	.....
(a) Area under all crops..... (Include all field, garden and orchard crop land.)	.....	.....
(b) Area of land summer fallowed.....	.....	.....
(c) Area of improved land in pasture..... (Include all cultivated land seeded to pasture.)	.....	.....
(d) Area of other improved land..... (Include any idle improved land, also area of buildings, barnyards, lanes, etc.)	.....	.....
63. Area of unimproved land..... (The answer to this inquiry must equal the sum of the answers to inquiry No. 63 (a), (b) and (c).)	.....	.....
(a) Area of woodland (1) Natural.....	.....	.....
(2) Planted..... (Include as woodland all farm woodlots, maple bushes, land leased for firewood, and cutover land with young growth which has or will have value as wood or timber.)	.....	.....
(b) Area of unbroken prairie, bush, stump or marsh, unimproved hay and pasture land..... (Include all natural prairie, bush, or stump land, whether leased, rented or owned, that has never been ploughed and is now used for hay or pasture.)	.....	.....
(c) Area of wet marsh, slough, rocky or waste land.....	.....	.....

CROPS	CROPS OF 1940: (Whether planted or harvested by present occupier or not.) AREA (Sown or planted for harvest in 1940)	Quantity harvested whether sold, kept on the farm for seed or feed or otherwise disposed of	Quantity sold or to be sold. (This refers only to crops harvested in 1940 and mentioned in column 2)	Value of quantity sold or to be sold	Crop failure. (Area where no crop whatever was harvested. State cause, such as hail, drought, rust, etc.)	1941 Area sown or planted for harvest in 1941. In the case of hay, include only the area from which a crop will be harvested in 1941

Avis à l'énumérateur.—CE RAPPORT EST CONFIDENTIEL et ne doit servir qu'à la compilation des statistiques. Toute personne employée à l'exécution d'une fonction sous le régime de la loi de la statistique qui divulgue le contenu de toute formule ou qui, par négligence ou manque de soin, permet qu'une formule ou partie de formule soit vue par d'autres, sera passible d'amende ou d'emprisonnement ou des deux. (8 et 9 George V, C. 43, A. 35.)

1. Il faut répondre à toutes les questions lorsqu'elles sont applicables. S'il existe une comptabilité de ferme, y prendre les renseignements, si non, obtenir les données les plus exactes permises par les circonstances. Consulter souvent votre Manuel d'Instructions.

2. Exploitant de ferme.—Toutes les réponses à ce questionnaire doivent se rapporter à la ferme occupée le 2 juin 1941 par la personne dont le nom est inscrit à la question n° 1.

Le terme "exploitant" est employé dans le recensement pour désigner la personne qui est directement responsable des opérations agricoles, soit comme propriétaire, locataire, récolteur ou gérant à gages.

3. Pour fins de recensement, une ferme comprend toute la terre située dans un sous-district quelconque et directement cultivée par une personne soit seule ou avec l'aide des membres de sa famille ou d'employés à gages. Elle peut être composée d'une étendue séparée de terre ou d'un nombre de lots séparés sous divers modes de tenure. Pour être déclarée comme ferme, une telle terre doit avoir une acre ou plus et avoir donné en 1940 des produits agricoles d'une valeur de $50 ou plus, ou être en culture ou utilisée pour le pacage en 1941.

EXPLOITANT DE FERME, 2 JUIN 1941

1. Nom.....
2. Adresse postale.....Age.....
3. Lieu de naissance.....Origine raciale.....
   (Si c'est au Canada, donner la province.)
4. Durée de résidence au Canada (si vous n'y êtes pas né)..années
5. Depuis combien de temps exploitez-vous la ferme que vous occupez?.....années
6. Combien de temps avez-vous travaillé sur une ferme?
   (a) comme propriétaire ou propriétaire partiel.....années
   (Inclure l'expérience agricole dans les autres pays.)
   (b) comme locataire.....années
   (c) comme ouvrier agricole à la maison ou ailleurs.....années

TRAVAIL HORS DE CETTE FERME EN 1940

7. Quelle est votre principale source de revenu (de l'exploitant)?.....
   (Nommer la source d'où provient habituellement la plus grande partie de votre revenu total, que ce soit de la ferme, industrie laitière, fruits, blé, etc., ou d'autres sources ne se rapportant pas à la ferme, telles que: travaux de route, pêche, abattage du bois, charpenterie, etc. Lorsque deux sources ou plus rapportent des recettes approximativement égales, les nommer.)

15. Valeur estimative du loyer de la maison et/ou de la chambre et pension fournis à la main-d'œuvre agricole engagée en 1940.....$.....

SUPERFICIE ET TENURE DE LA FERME

16. Superficie totale de la ferme en acres
   (a) en 1941.....acres
   (b) en 1940.....acres
   (Donner toutes les terres exploitées par la personne désignée dans la question 1, y compris les champs éloignés et détachés, les pâturages et les terrains boisés situés dans votre sous-district d'énumération. Ne pas inclure le terrain appartenant à cet exploitant-ci mais loué à un autre. Pour ce qui est des pâturages en commun, voir Manuel d'Instructions.)

17. De combien d'acres de cette ferme êtes-vous
   (a) propriétaire en 1941?.....acres
   (b) locataire en 1941?.....acres
   (c) gérant engagé en 1941?.....acres
   (La somme des réponses à la question 17 (a), (b) et (c) doit être égale à la réponse à 16 (a).)

	Nombre	Année du dernier modèle	Valeur
24. Camions automobiles sur cette ferme			$
25. Tracteurs sur cette ferme:			
(a) De moins de 15 h.p. sur crochet de traction			$
(b) De 15 h.p. et plus sur crochet de traction			$
26. Combines pour le grain sur cette ferme			$
27. Batteuses sur cette ferme			$
28. Moteurs fixes sur cette ferme:			
(a) Gazoline			$
(b) Electriques			$
(Donner dans la colonne 2 le horse-power combiné du nombre de machines inscrit dans la colonne 1.)			

8. (a) Combien de jours en 1940 avez-vous (l'exploitant de ferme) travaillé moyennant rétribution à un ouvrage non rattaché à cette ferme? (omettre la main-d'œuvre échangée).....jours.

(b) Occupation les jours déclarés sous (a).....
(Tel que commis, manœuvre, charpentier, pêcheur, bûcheron, travail sur routes, conducteurs d'autobus d'école, etc:)

(c) Revenu brut du travail à l'extérieur $.....
(Comprend le revenu de (a) et en outre celui de tout travail accompli à l'extérieur par les membres de votre famille ou les engagés, avec ou sans chevaux, tracteurs, batteuses, combines ou tout autre outillage. Si un fils ou une fille demeurant sur cette ferme travaille en permanence en dehors de la ferme, ses gages ne doivent pas être inclus ci-dessus.)

(d) Revenu brut provenant de pensionnaires, logés, cabines de route et campeurs.....$.....
(Ne pas inclure la pension offerte à la main-d'œuvre agricole.)

(e) Montant reçu pour dommages par le feu et la grêle, pour la vente de machines agricoles, etc.$.....

POPULATION DE LA FERME, 2 JUIN 1941

9. Personnes vivant sur cette ferme le 2 juin 1941

Agés de 14 ans et plus, nomb.....
(b) Femmes au-dessous de 14 ans, nomb.....
Agées de 14 ans et plus, nomb.....

10. Combien de personnes, de 10 ans et plus, vivant sur cette ferme le 2 juin 1941, ne vivaient pas sur une ferme en 1931?.....nomb.....

TRAVAIL DE FERME
(Sauf le travail ménager)

11. Combien de membres de la famille de l'exploitant, de 14 ans et plus (y compris l'exploitant) travaillaient sur cette ferme, sans recevoir de gages, la semaine terminée le 31 mai 1941.....nomb. H.....F.....

12. Combien de personnes à gages travaillant sur cette ferme la semaine terminée le 31 mai 1941 étaient—
(a) Engagées toute l'année.....nomb. H.....F.....
(b) Engagées au mois.....nomb. H.....F.....
(c) Engagées à la journée.....nomb. H.....F.....
(Y compris gérants et membres à gages de la famille)

13. Nombre de semaines de travail des engagés en 1940..... semaines.
(Si l'exploitant a fait du travail à forfait (custom), inclure la main-d'œuvre engagée à cette fin.)

14. Total des gages payés en espèces en 1940 pour le travail de ferme.....$.....
(Inclure les gages des gérants et des engagés pour le travail à forfait à l'extérieur.)

18. Si vous avez loué en 1940, le loyer a-t-il été payé
(a) en espèces.....$.....
(b) en nature.....$.....
(c) en partage.....$.....
(Si vous n'exploitiez pas cette ferme en 1940 et si elle a été louée, donner une valeur estimative du loyer.)
(Si le loyer est payé en espèces, indiquer le montant sous (a); s'il est payé en nature, donner la valeur estimative en argent sous (b); s'il est payé en partage, donner sous (c) la valeur estimative en argent et la part payée telle que ½, ⅓, ¼, etc. Si les taxes sont payées par l'exploitant, inclure le montant sous (a).)

19. Si vous exploitez des terres louées dans ce sous-district ou ailleurs, donner le nom et l'adresse du ou des propriétaires.
Nom.....Adresse.....
Nom.....Adresse.....

TERRE EXPLOITÉE HORS DE CE SOUS-DISTRICT EN 1941

(Ne pas inclure ici les terrains mentionnés à la question 16, ni la terre, appartenant à cet exploitant, située en dehors de ce sous-district d'énumération mais louée à un autre.)

20. Exploitez-vous une terre hors de ce sous-district d'énumération? (Oui ou non).....
Si oui, déclarer: (a) Municipalité, township ou paroisse.....
Rang ou concession.....Lot n°.....
Ou dans les Provinces des Prairies:
Sec.....Twp.....R.....M.....
Sec.....Twp.....R.....M.....
(b) Terre possédée.....acres. Terre louée.....acres

VALEUR DE LA FERME, 2 JUIN 1941

21. Valeur totale de cette ferme (terrain et bâtiments).....$.....
(Donner le prix auquel cette ferme (voir question 16) pourrait être vendue. Inclure la valeur du terrain et des bâtiments affectés à l'agriculture et situés dans ce sous-district, soit possédés, loués à bail ou gérés. Ne pas inclure la valeur des instruments, de la machinerie et du bétail, ni de la terre dont vous êtes propriétaire mais exploitée par un autre.)

22. Valeur de tous les bâtiments sur cette ferme (Cette valeur doit être comprise dans la réponse à la question 21.) (Pour les fermes d'institution, voir le Manuel d'Instructions.).....$.....

MACHINERIE DE LA FERME, 2 JUIN 1941	Nombre	Année du dernier modèle	Valeur
(Donner la valeur que rapporterait la vente libre de cette machinerie. Ne pas inclure l'outillage hors d'usage. Rapporter la machinerie possédée en partage avec la ferme où elle se trouve à la date du recensement.)			
23. Automobiles sur cette ferme.....			$.....
29. Tous autres outillage et machinerie sur cette ferme.....	x x x	x x x	$.....
(Inclure tous autres machines et outillages agricoles tels que: lieuses, faucheuses, semeuses, cultivateurs, wagons, outillage de laiterie, outillage d'éclairage domestique, outils de jardin, harnais, etc.)			
30. Valeur totale de la machinerie et de l'outillage.....	x x x	x x x	$.....

(La réponse de cette question doit être égale à la somme des réponses aux questions 23 à 29, colonne 3.)

HYPOTHÈQUES, CONVENTIONS DE VENTE, LIENS, 2 JUIN 1941

(Inclure toutes les hypothèques ou conventions de vente sur le terrain et les bâtiments possédés et exploités par cet exploitant soit dans ce sous-district ou ailleurs.)

31. Total des (a) hypothèques sur cette ferme.....$.....
(b) conventions de vente sur cette ferme...$.....
(Ne pas manquer d'inclure les hypothèques ou les conventions de vente sur toutes les terres possédées et exploitées par l'exploitant de cette ferme. Le montant déclaré ici doit comprendre toutes les dettes protégées par des hypothèques, actes de fiducie, jugements, conventions de vente et tout autre instrument légal de la nature d'une hypothèque. Etre certain de ne pas omettre les hypothèques ou les conventions de vente sur les terres éloignées possédées et exploitées par cet exploitant, mais ne pas inclure celles sur les terres qui lui appartiennent mais que d'autres exploitent. Inclure tout intérêt accru sauf celui de l'année courante. Ne pas inclure les dettes protégées par des liens sur les récoltes, le bétail ou les instruments. Dans le cas des conventions de vente où le paiement se fait en nature, donner une valeur estimative en argent du montant dû.)

32. (a) Quel taux d'intérêt (taux de contrat) payez-vous par année?
(Inscrire le taux dans le carré opposé au détenteur désigné de la créance.)

1.	Corporation (telle que compagnies de prêt, fiducie, assurance, chemin de fer, banques, etc.)	%	2.	Gouvernement (fédéral ou provincial.)	%	3.	Municipalité	%	4.	Individu	%	5.	Parent	%

(b) Montant payé en 1940 sur le principal et l'intérêt de la dette mentionnée à la question 31.....$.....

33. Dette totale couverte par des liens sur les récoltes, le bétail ou les instruments.....$.....

34. Taux d'intérêt par année sur les dettes mentionnées à la question 33.....%.....

JARDINS ET VERGERS DE LA FERME

(Les questions nos 35 à 38 ne s'appliquent qu'aux fermes ayant moins de 50 arbres fruitiers ou à celles qui ont vendu pour moins de $50 de légumes ou de semences de légumes (**non compris les pommes de terre et les navets**), de petits fruits, ou de produits de pépinière. Pour toute autre ferme, remplir la formule 2A et ne pas répondre aux questions nos 35 à 38.)

35. Valeur de tous les légumes cultivés sur cette ferme en 1940.....$.....
(Y compris les produits de serre ou serre chaude, tels que champignons, la rhubarbe, les tomates, les concombres etc., (non compris les pommes de terre et les navets).)

36. Valeur de tous les fruits cultivés sur cette ferme en 1940:

Form 2A

CENSUS OF AGRICULTURE

(FRUITS AND VEGETABLES SCHEDULE)

DOMINION BUREAU OF STATISTICS

R. H. COATS, DOMINION STATISTICIAN

EIGHTH CENSUS OF CANADA, 1941

NOTICE TO THE ENUMERATOR.—This schedule is to be filled (a) for farms which produced for sale in 1940 either vegetables, vegetable seed, nursery products or small fruits to the value of $50 or more and (b) for farms where there were 50 fruit trees or more in 1941. Special care must be taken to follow instructions as given on this schedule and in the Book of Instructions. On market gardens and in greenhouses several crops may be planted on the same ground; in this case the area must be counted as many times as there were crops. For example, a grower may have taken in 1940 five crops of radishes off one acre of ground: in this case the entry will be five acres. Similarly, if he plans planting five times in 1941, the entry under this heading should be five acres. In the case of interplanting or of vegetables grown between fruit trees, rather than giving the area, give in columns 2, 3, 8 and 9, the average length of rows and the number of rows. POTATOES AND TURNIPS are to be reported on Form 2. **Remember that this report is absolutely confidential.**

ENUMERATOR'S RECORD

Number of farm in order of visitation.....
(This number must be the same as on Form 2 for this farm.)

Page and line on which the name of this operator is entered on the population schedule. Page..... Line.....

Date.....District.....Sub-district.....

Signed.....(Enumerator)

OMETTRE LES CENTS DANS LA DÉCLARATION DES VALEURS

Formule 2A

RECENSEMENT DE L'AGRICULTURE

(Questionnaire sur les Fruits et Légumes)

BUREAU FÉDÉRAL DE LA STATISTIQUE

R. H. COATS, Statisticien Du Dominion

HUITIÈME RECENSEMENT DU CANADA
1941

AVIS À L'ÉNUMÉRATEUR.—Ce questionnaire doit être rempli (a) pour les fermes qui ont produit, pour la vente en 1940, des légumes, semences de légumes, produits de pépinière ou petits fruits d'une valeur de $50 ou plus et (b) pour les fermes qui comptent 50 arbres fruitiers ou plus en 1941. Les instructions données sur ce questionnaire et dans le Manuel d'Instructions doivent être suivies avec un soin particulier. Dans les cultures maraîchères ou les serres, plusieurs récoltes peuvent être ensemencées dans la même terre; dans ce cas, la superficie doit être comptée autant de fois qu'il y a de récoltes. Par exemple, un cultivateur a pu prendre en 1940 cinq récoltes de radis sur une acre de terre: dans ce cas, cinq acres seront inscrites. De même, s'il projette de planter cinq fois en 1941, cinq acres devront être inscrites sous cet en-tête. Dans le cas des entre-semis ou des légumes cultivés entre les arbres fruitiers, plutôt que de donner la superficie, inscrivez dans les colonnes 2, 3, 8 et 9 la longueur moyenne et le nombre de rangs. Les Pommes de terre et les Navets doivent être déclarés sur la Formule 2. **N'oubliez pas que ce rapport est absolument confidentiel.**

ANNOTATIONS DE L'ÉNUMÉRATEUR

N° de la ferme dans l'ordre des visites.....

WHEN REPORTING VALUES OMIT CENTS

Ce questionnaire doit être rempli pour toutes les fermes qui ont été employées pour fins agricoles dans le passé mais qui sont maintenant abandonnées ou inexploitées. **Formule 2B**

BUREAU FÉDÉRAL DE LA STATISTIQUE

FERMES ABANDONNÉES OU INEXPLOITÉES, 2 JUIN 1941

HUITIÈME RECENSEMENT DU CANADA, 1941

Province..... District électoral.....
(Ecrire le nom et le numéro)

Sous-district de recensement N°..... dans la municipalité de.....
(Ecrire le nom et si c'est un district d'amélioration, en donner le numéro)

Signé..... Vérifié par.....
(Enumérateur) (Commissaire)

Farms to be enumerated on this schedule are only those which, at some time in the past, have been employed, totally or in part, for the growing of crops and are abandoned or idle on June 2, 1941. An "abandoned farm" is one which has been unoccupied during the last several years, is in arrears for taxes, and has, to all appearances, been deserted by the owner. An "idle farm" is one which is unoccupied at the date of the Census, on which no crop was harvested in 1940, and which is not under crop of any kind in 1941.

If a farm which has been cropped at some time in the past and which has been abandoned by its occupier is now used for pasture by a neighbouring farmer, it must not be enumerated on this schedule, but on Form 2, as part of the farm of the operator who uses it, even if he pays no rent for it.

The information necessary to reply to inquiries on this schedule may be obtained from farmers living in the vicinity of the idle farm, from the local assessor, or from the secretary of the municipality.

INSTRUCTIONS FOR THE PROPER FILLING OF THIS SCHEDULE

Column 1. Date of enumeration. This question is self-explanatory.

Column 2. Number of this farm in regular order of visitation. The enumerators will number the abandoned or idle farms in the same way as the occupied farms in continuing order throughout the sub-district. For example, the first farm visited will be numbered "1". If the second farm visited is idle, the number entered in Column 2 will be "2". In this way all the farms in the sub-district, whether occupied or idle, will be numbered consecutively.

Columns 3 and 4. Name and address of present owner. In these two columns the enumerator will enter the name and address, if known, of the present owner, whether an individual, a loan or other company, the government or the municipality.

Columns 5, 5A, 5B, 5C, 6 and 7. Location of the farm. The enumerators in the Provinces of Manitoba, Saskatchewan, Alberta, and in other provinces wherever applicable, will be careful to mark the exact location of the abandoned or idle farms. As many lines will be used as there are sections or parts of separate sections in the farm. Elsewhere the location will be entered in Columns 6 and 7.

After making the entry on the schedule, the enumerator will locate the section or lot on the map supplied and mark each quarter section or each lot with the letter "A".

Column 9. Total area of this farm. The total area of each farm will be entered in Column 9.

Column 10. Area improved. In this column will be entered an estimate of the area of improved land in this farm, i.e., the area which has been brought under cultivation and which is fit for the plough on June 2, 1941.

Columns 11 and 12. Total value of farm and buildings. The values to be entered in these columns must be estimated in relation to the value of neighbouring occupied farms. Enumerators must guard against the entering of exaggerated values.

Columns 13, 14 and 15. Buildings on this farm and their condition. In these columns the enumerator will enter the number of houses, barns and sheds in their respective columns, together with their present state of repair. He will enter "G" for good, "F" for fair and "B" for bad. For example, if there is one house in good state of repair, the enumerator will enter "1G" in Column 13, etc.

Column 16. Is this farm suitable for resettlement? The answer in this column will be "Yes" or "No." The enumerator, in this instance, will consult with neighbouring farmers and give an honest opinion as to whether or not this farm, if properly worked, could support a farm family.

Columns 17 to 25. Reasons why this farm is not considered suitable for resettlement. The enumerator will mark "X" in the appropriate column or columns, if the farm is not considered suitable for resettlement. If the reason is a different one than those mentioned in Columns 17 to 24, then he will give, in one or two words, the reason in Column 25.

Les fermes qui doivent être énumérées d'après ce questionnaire sont celles seulement qui dans le passé, à un certain moment, furent affectées totalement ou partiellement aux cultures et qui sont abandonnées ou inexploitées le 2 juin, 1941. Une "ferme abandonnée" est une ferme inoccupée depuis plusieurs années, dont les taxes sont en souffrance et qui, selon toutes les apparences, a été abandonnée par son propriétaire. Une "ferme inexploitée" est une ferme inoccupée à la date du recensement, sur laquelle il n'y a pas eu de cultures en 1940 et qui n'est en culture d'aucune sorte en 1941.

Si une ferme qui a déjà été en culture et qui a été abandonnée par la suite par ses occupants est maintenant utilisée comme pâturage par un fermier du voisinage, elle ne doit pas être inscrite sur ce questionnaire, mais plutôt sur la formule 2, comme partie de la ferme de l'exploitant qui s'en sert, même s'il n'en paye aucun loyer.

Les renseignements demandés en réponse à ce questionnaire peuvent être obtenus des fermiers du voisinage de la ferme inexploitée, de l'évaluateur local ou du secrétaire de la municipalité.

INSTRUCTIONS POUR BIEN REMPLIR CE QUESTIONNAIRE

Colonne 1. Date de l'énumération. Cette question s'explique par elle-même.

Colonne 2. Numéro de cette ferme dans l'ordre régulier des visites. Les énumérateurs numéroteront les fermes abandonnées ou inexploitées de la même manière que les fermes occupées par ordre de continuité d'un bout à l'autre du sous-district. Par exemple, la première ferme visitée portera le numéro "1". Si la deuxième est inexploitée elle sera inscrite dans la colonne 2 et portera le numéro "2". De cette façon toutes les fermes du sous-district, occupées ou inexploitées, seront numérotées consécutivement.

Colonnes 3 et 4. Nom et adresse du propriétaire actuel. L'énumérateur inscrira dans ces deux colonnes le nom et l'adresse, si connus, du propriétaire actuel, que ce soit un particulier, une compagnie de prêt ou autre, le gouvernement ou la municipalité.

Colonnes 5, 5A, 5B, 5C, 6 et 7. Localité de la ferme. Les énumérateurs du Manitoba, de la Saskatchewan et de l'Alberta, et des autres provinces où la chose est applicable, veilleront à indiquer la localité exacte des fermes abandonnées ou inexploitées. Ils utiliseront autant de lignes qu'il y a de sections ou de parties de sections séparées dans la ferme. Ailleurs, la localité sera inscrite dans les colonnes 6 et 7.

Après avoir fait l'entrée sur le questionnaire, l'énumérateur indiquera sur la carte qui lui est fournie la localité de la section ou du lot et marquera de la lettre "A" chaque quart de section ou chaque lot.

Colonne 9. Superficie totale de cette ferme. La superficie totale de chaque ferme sera inscrite dans la colonne 9.

Colonne 10. Superficie défrichée. Dans cette colonne sera inscrite la superficie estimative de terre défrichée sur cette ferme, i.e., la superficie déjà cultivée et pouvant être labourée le 2 juin, 1941.

Colonnes 11 et 12. Valeur totale de la ferme et des bâtiments. Les valeurs devant être inscrites dans ces colonnes doivent être établies en fonction de la valeur des fermes occupées du voisinage. Les énumérateurs doivent se garder d'inscrire des valeurs exagérées.

Colonnes 13, 14 et 15. Bâtiments sur cette ferme et leur état. Dans ces colonnes, l'énumérateur inscrira le nombre d'habitations, de granges et de remises dans leurs colonnes respectives, de même que leur état actuel. Il inscrira "G" pour bon, "F" pour passable et "B" pour mauvais. Par exemple, s'il y a une maison en bon état, l'énumérateur inscrira "1G" dans la colonne 13, etc.

Colonne 16. Cette ferme pourrait-elle être réexploitée? La réponse à cette question doit être "oui" ou "non". L'énumérateur, dans ce cas, consultera les fermiers voisins et dira franchement si cette ferme, bien administrée, peut ou non faire vivre une famille de fermier.

Colonnes 17 à 25. Raisons pour lesquelles cette ferme ne pourrait pas être réexploitée. L'énumérateur placera un "X" dans la ou les colonnes appropriées si la ferme n'est pas jugée susceptible de réexploitation. Si la raison diffère de celles mentionnées dans les colonnes 17 à 24, il l'indiquera en un ou deux mots dans la colonne 25.

FORM 3 **This form is to be used for reporting agricultural products on plots of less than one acre and on other plots of one acre or more where the value of agricultural production was less than $50 whether in rural or urban localities.**

APPENDIX C

DESCRIPTIONS OF CENSUS DIVISIONS

For the purpose of compiling the census and to provide a means of presenting statistical data for permanent areas smaller than a province, the county municipalities were used in Eastern Canada rather than the electoral districts. In the four western provinces, there being no fixed political divisions corresponding to the counties of Eastern Canada, these provinces have been divided for statistical purposes into census divisions and subdivisions. These census divisions have been so laid out that as population increases, they may be subdivided without destroying the means of comparing the variations in population and agriculture disclosed by censuses.

The reason for using areas with fixed boundaries rather than electoral districts as a basis for the compilation of the census is that the electoral districts being liable to have their areas changed after each redistribution make it impossible to compare one census with another for areas smaller than a province.

The census divisions of the province are constituted as follows:—

ONTARIO.—In the province of Ontario the divisions are the county municipalities. The rural parts are divided into townships and a certain number of unorganized areas. The urban parts are made up of cities, towns and villages.

APPENDICE C

DESCRIPTION DES DIVISIONS DE RECENSEMENT

Pour fins de compilation de recensement et comme moyen de présenter des données statistiques pour les régions permanentes moins considérables qu'une province, les municipalités des comtés ont été utilisées de préférence aux districts électoraux dans l'Est du Canada. Les quatre provinces de l'Ouest ne comprenant pas de divisions politiques fixes correspondant aux comtés de l'Est du Canada, ont été divisées au point de vue de la statistique en divisions et subdivisions de recensement. Ces divisions de recensement ont été établies de telle sorte qu'à mesure que la population augmente, elles peuvent être subdivisées sans pour cela détruire les moyens de comparer les changements tels que révélés par le recensement qui se sont opérés dans la population et dans l'agriculture.

La raison de l'emploi de régions à limites déterminées de préférence aux districts électoraux comme base de compilation de recensement, est que les districts électoraux sont susceptibles de remaniement après chaque redistribution et qu'il est impossible d'établir des comparaisons d'un recensement à l'autre pour des régions moins considérables qu'une province.

Les divisions de recensement de la province sont constituées de la façon suivante:—

ONTARIO.—Dans la province d'Ontario les divisions sont les municipalités de comté. Les parties rurales sont divisées en townships et en un certain nombre de régions non organisées Les parties urbaines comprennent les cités, villes et villages.
